

Univariate plots of Yaounde COVID study data

2020-12-05

Contents

1 Administration of questionnaire	4
1.1 Is this the original sampled household?	4
1.3 Which surveyors administered the questionnaire?	4
1.4 Date of survey completion	5
1.5 City Area	6
2 Household Composition	7
2.2 GPS location	7
2.3 Number of rooms	7
2.4 Number of adults	8
2.5 Number of children	8
2.7 Have there been deaths in the household since March 1st?	8
2.7.1 If there have been deaths in the household since March 1st, specify	8
3 Information about the household	9
3.1 Are you the "Chef du menage"?	9
3.2 Are you the principal breadwinner in the household?	9
3.3 Who is the principal breadwinner in the household?	9
3.4 What are the revenue sources of the family?	9
3.4.1 If you answered "Other" to the previous question, specify	10
3.5 Since March 1st, has the revenue of the household diminished?	10
3.6 Has a household member lost their job or had their working hours reduced?	10
3.7 Has a household member tested positive for COVID-19?	11
3.7.1 If a household member has tested positive for COVID-19, specify	11
4. Socio-administrative information about the surveyed individual	12
4.1 Sex	12
4.2 Age	12
4.3 Date of birth	12
4.4 Education level	12
4.5 "Are you currently a..." (occupation)	13
4.5.1 If you answered "Other" to the previous question, specify	13
5. Symptoms suggestive of COVID-19	14
5.1 Since the 1st of March, have you had one or several of the following symptoms?	14
5.1.1 If you answered "other" to the previous question, specify	16
5.1.2 How severe have your symptoms been?	16
5.1.3 FOr how many days were you bedridden?	16
5.1.3 For how many days were you unable to go to work?	16

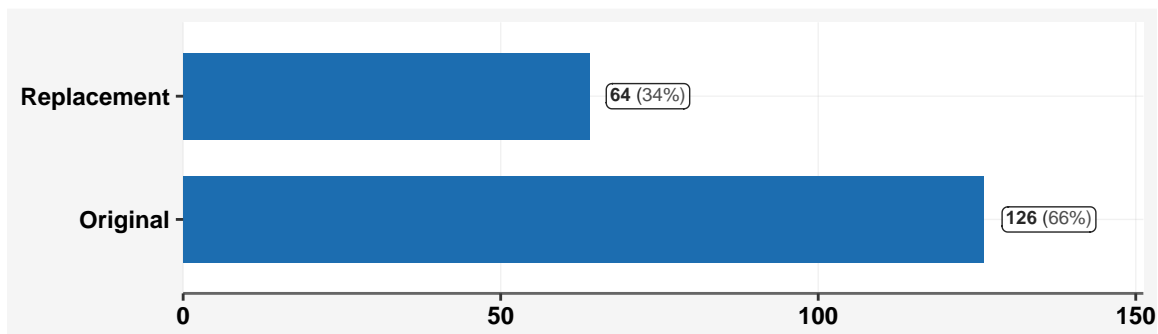

6 Treatment course for symptoms characteristic of COVID-19	17
6.1 Since March 1st, have you sought medical care for symptoms characteristic of COVID-19?	17
6.1.1 Who/Where did you consult for your symptoms?	17
6.1.1.1 If you answered Other to the previous question, specify	18
6.2 Have you taken one or several medications for symptoms characteristic of COVID-19?	18
6.4 Have you been hospitalized since March 1st?	20
6.5 If you have taken steps to access care regarding suspected or confirmed COVID-19, did you pay? . .	20
6.6 Have you participated in a prior COVID 19 Study?	21
7 Sequelae following COVID-19-like symptoms	22
7.1 Have you had health problems which have persisted after having COVID-like symptoms?	22
7.1.1 If yes to the prior question, specify	22
8 COVID-19 tests carried out before the visit	23
8.1 Have you carried out any screening test for COVID-19?	23
8.1.2 If you have previously had a COVID test, for what reason was the test done?	23
8.1.1.1 If you responded "Other" to the previous question, specify	23
9 Comorbidities, risk factors	24
9.1 What is your height (in cm)?	24
9.2 What is your weight (in kg)?	24
9.3 Are you currently a smoker?	25
9.4 Do you suffer from any chronic health problems?	25
9.4.1 If you suffer from any health issues / chronic diseases, specify	25
9.4.1.1 If you have answered "Other" to the previous question, specify	27
9.5 Are you pregnant?	28
9.6 Do you take medications regularly?	28
9.8 Have you been in contact with someone who had confirmed or suspected COVID?	29
9.9 Have you been in contact with someone coming from abroad?	29
9.10 Do you think that your risk of getting infected with the new virus is...?	29
10 Difficulty of access to care	30
10.1 Since March 1st, have you had difficulty in obtaining medical care?	30
10.1.1 If you had difficulty in obtaining medical care, specify	30
10.2 Since the first of March, have you been unable to access your usual medications?	31
10.2.1 If you have been unable to access your medications, what are the medications concerned?	31
11 Financial barriers to medical access	32
11.1 Do you have health insurance?	32
11.2 Since March 1st, have you had difficulty in paying your insurance primes?	32
11.3 Since March 1st, have you encountered financial difficulty in paying for medical care or medications? .	32
11.4 Since March 1st, have you experienced delays in care for financial reasons?	33
11.5 If you have sought out medical care due to suspicion or confirmation of COVID, did you have difficulty in paying for transport costs, care or medication?	33
11.6 Since March 1st, have you consulted care for non COVID-like symptoms?	33
12 Other barriers to medical access (geography, perception)	34
12.2 Have you had difficulty in accessing medical centers due to inavailability or raised prices of transport? .	34
12.2.1 Explain your answer to the previous question	35
13 Behavior, hygiene, protective measures, physical distancing	36
13.1 Do you respect the simple rules of hygiene (wash hands frequently, sneeze into your elbow, use a disposable handkerchief, etc.)?	36
13.2 Do you respect the simple rules of social distancing (avoid handshakes or hugs, avoid unnecessary outings, etc.)?	36
13.3 Since March 1st, have you remained confined?	36

13.4 Since March 1st, have you been worried about contracting COVID-19?	37
13.5 Since March 1st, have you been worried about the reaction of the people around you if you were to contract COVID-19?	37
13.6 Do you think that people who contract COVID-19 are stigmatised and avoided by others?	37
13.7 Would you hide your illness if you were to contract COVID-19?	38
14 Impact of the COVID-19 confinement on you	39
14.1 Since March 1st, have you been unable to carry out your daily activities (other than work, such as visiting family, making meals, taking care of the children...) because of the confinement?	39
14.2 Since March 1st, have you stopped working or stopped one of your jobs due to the confinement?	39
14.3 Since March 1st, have you noticed an increase in stress for yourself or in your household, connected with the epidemic?	39
14.4 Within your household, have you faced since March 1st any physical or psychological violence?	40
14.5 Since March 1st, have you received any material aid (money, meals, ...) from external sources?	40
14.5.1 Specify the received items	41
14.5.2 If, since March 1st, you have received material aid from external sources, indicate which	42
14.5.2.1 If you responded "other" to the previous question, specify	43
14.5.3 If, since March 1st, you have received external material aid, at what frequency has this come, compared with before the pandemic?	43
15 Screening done during the survey visit	44
15.1 Do you currently have one or several of the following symptoms?	44
15.1.1 If you answered "Other" to the previous question, specify	45
15.2 Oxygen saturation	45
15.3 Breathing rate	45
16 Test done during the survey visit	46
16.1 Serologic test (whether or not carried out)	46
16.1 If the serologic test was not done, specify why	46
16.1.1 IgG test result	46
16.1.1 IgM test result	46
16.2 Was a sample taken for the antigen test?	47
16.2.1 If the antigen test was not done, specify why	48
16.2.1 Result of the antigen test	48
16.3 Was a sample taken for the PCR test?	48
16.3.1 If the PCR test was not done, specify why	49
16.3.1 Result of the PCR test	49
17 Recommendations to people with symptoms	50

1 Administration of questionnaire

1.1 Is this the original sampled household?

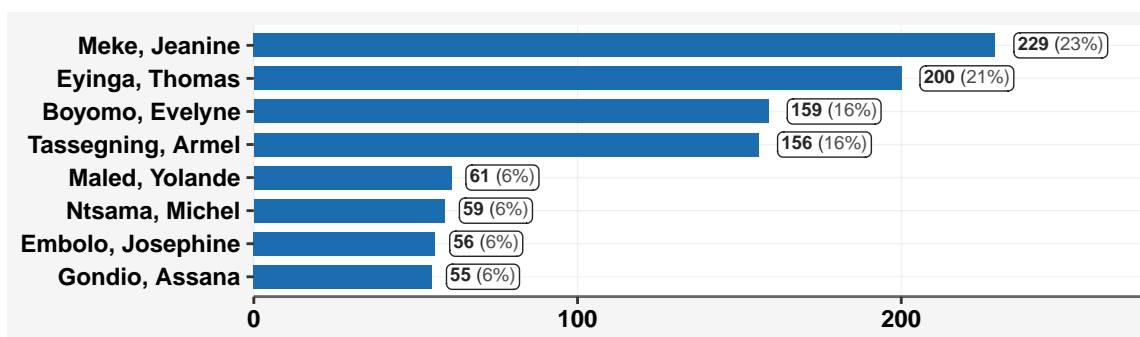

(per household)

NOTE It is not clear to me whether 0 means "original" or "replacement".

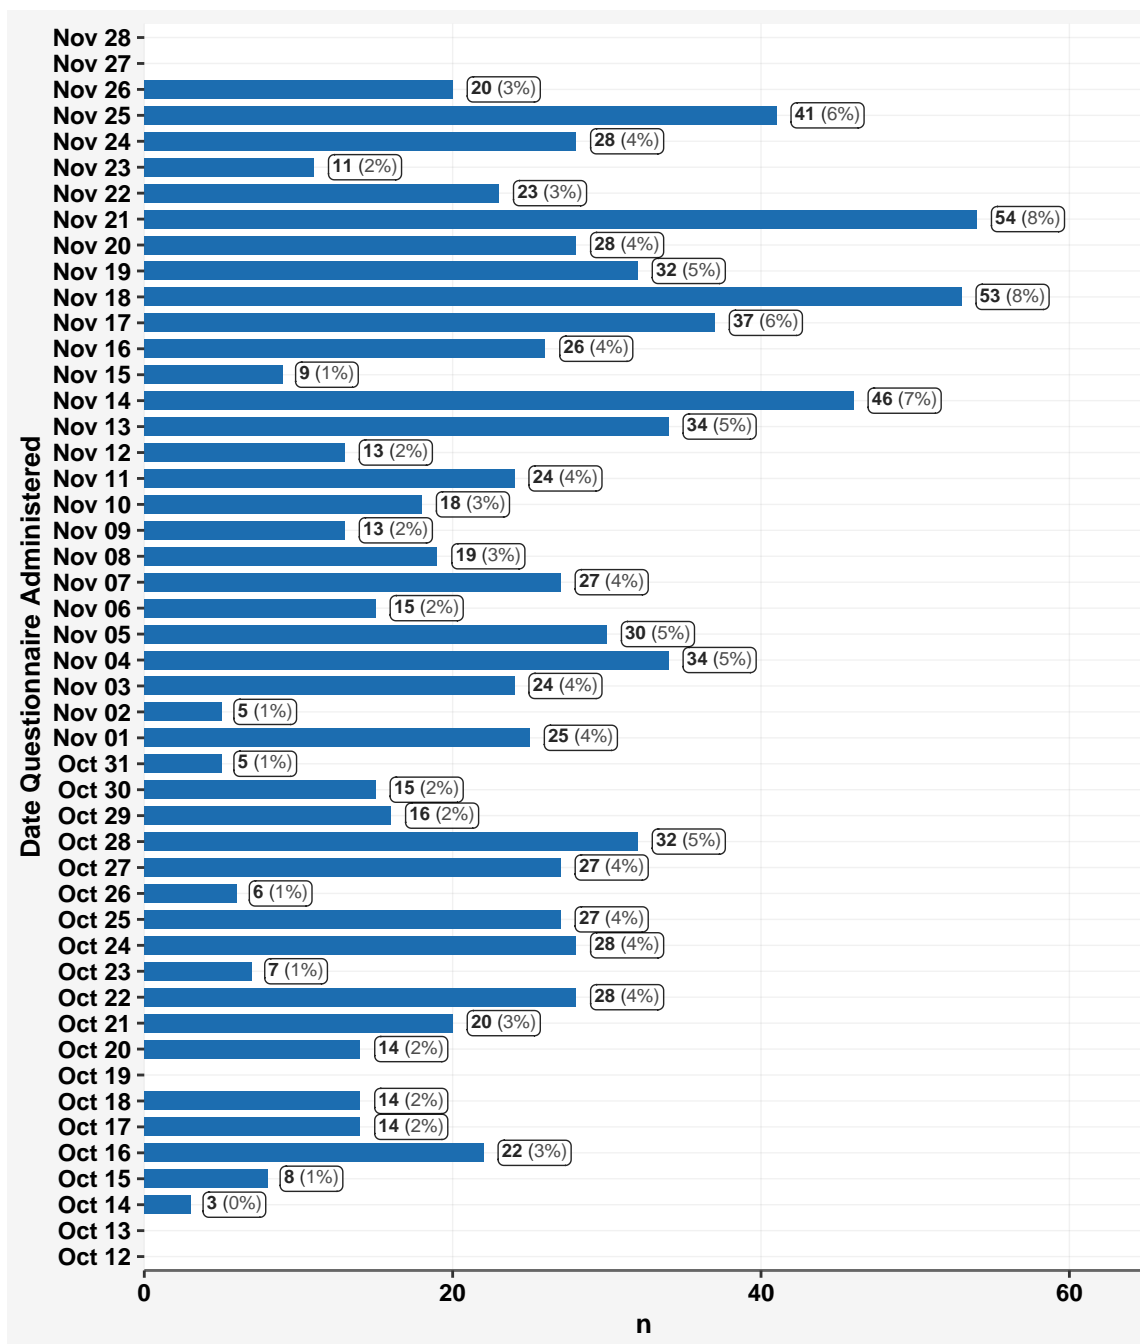

1.3 Which surveyors administered the questionnaire?

(per respondent)

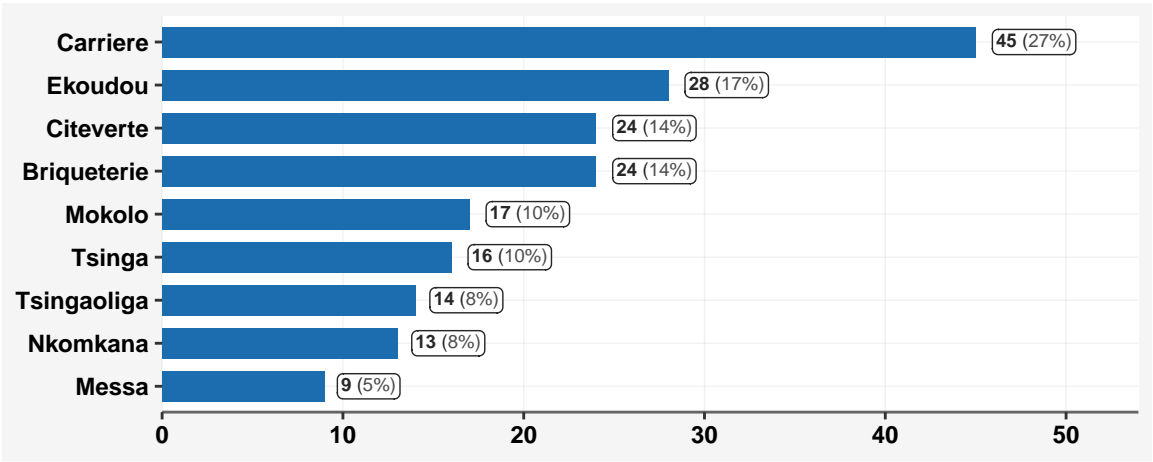

1.4 Date of survey completion

(per respondent)

1.5 City Area

(per household)

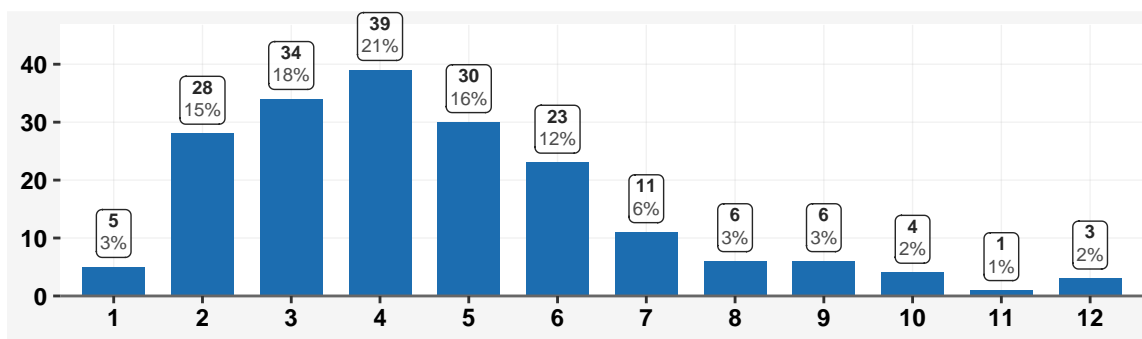

All variables below are per household. The answers from a single representative individual are taken to represent the information about the household.

- The first "household head" to be interviewed in a household; or
- In cases where there is no head, the first individual above 18 to be interviewed in the household.

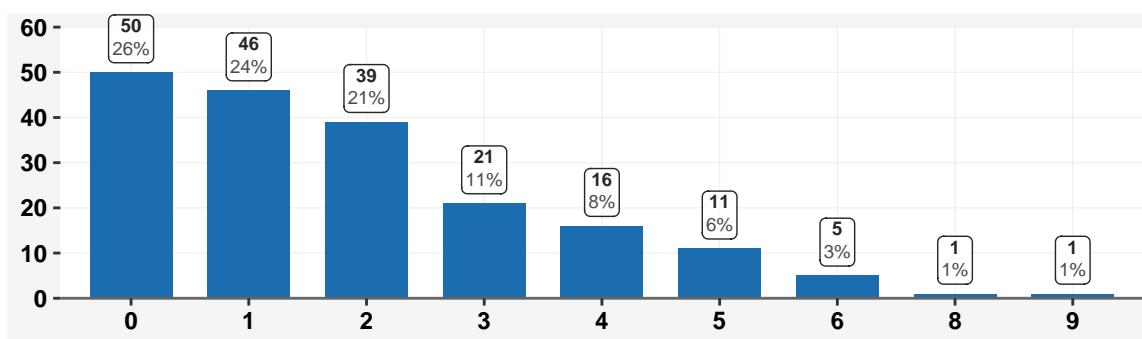

NOTE The map above is a screenshot of an interactive web map. See the html version of this report to access map

Number of Children	Number of People	Percentage
1	8	4%
2	16	8%
3	39	21%
4	58	31%
5	36	19%
6	19	10%
7	7	4%
8	6	3%
9	1	1%

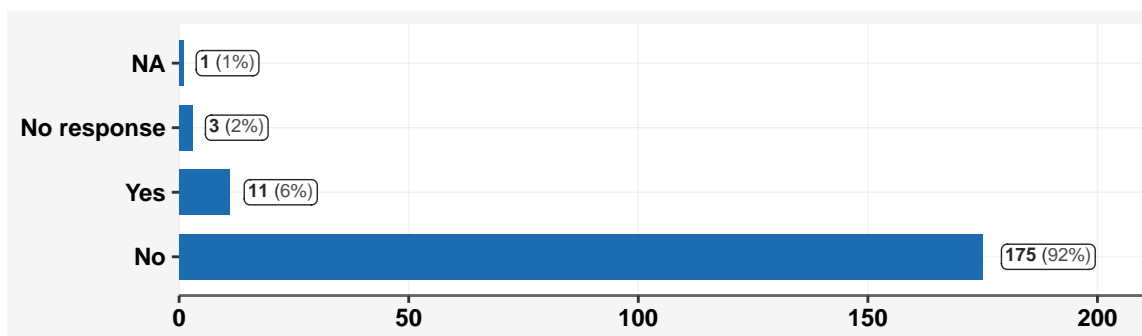

2.4 Number of adults

2.5 Number of children

2.7 Have there been deaths in the household since March 1st?

NOTE Here, NA means the cell was completely blank. NR means it was filled in as “Ne repond pas”

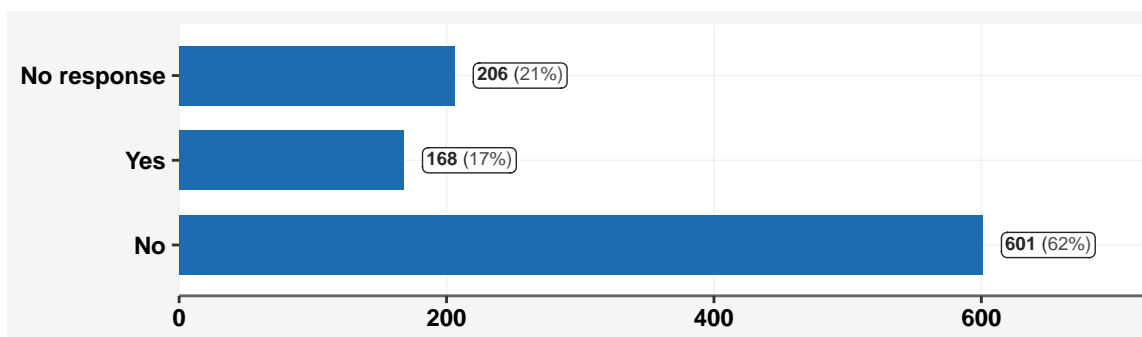

2.7.1 If there have been deaths in the household since March 1st, specify

All deaths reported are shown in the table below. No household had more than one death.

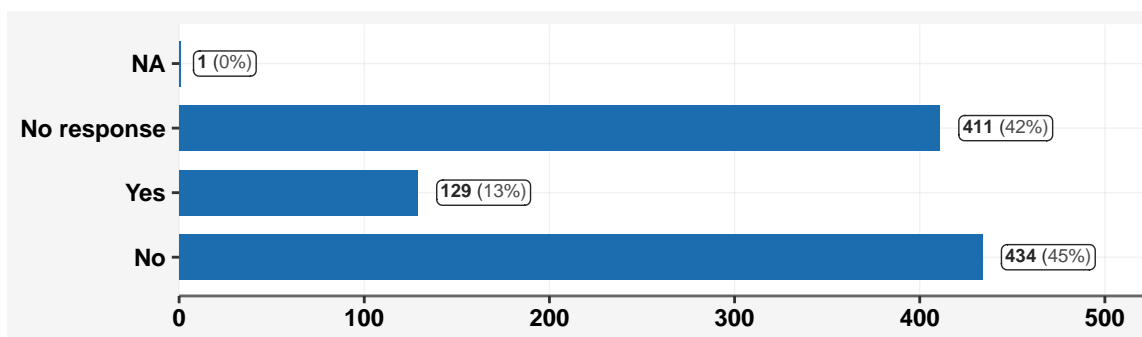

Date of Death	Sex	Age at Death	Cause of Death
Oct 11	M	83	Unspecified
Aug 25	F	67	Diabetes
May 01	M	50	Cardiac arrest
Apr 05	M	50	Stroke

3 Information about the household

3.1 Are you the "Chef du menage"?

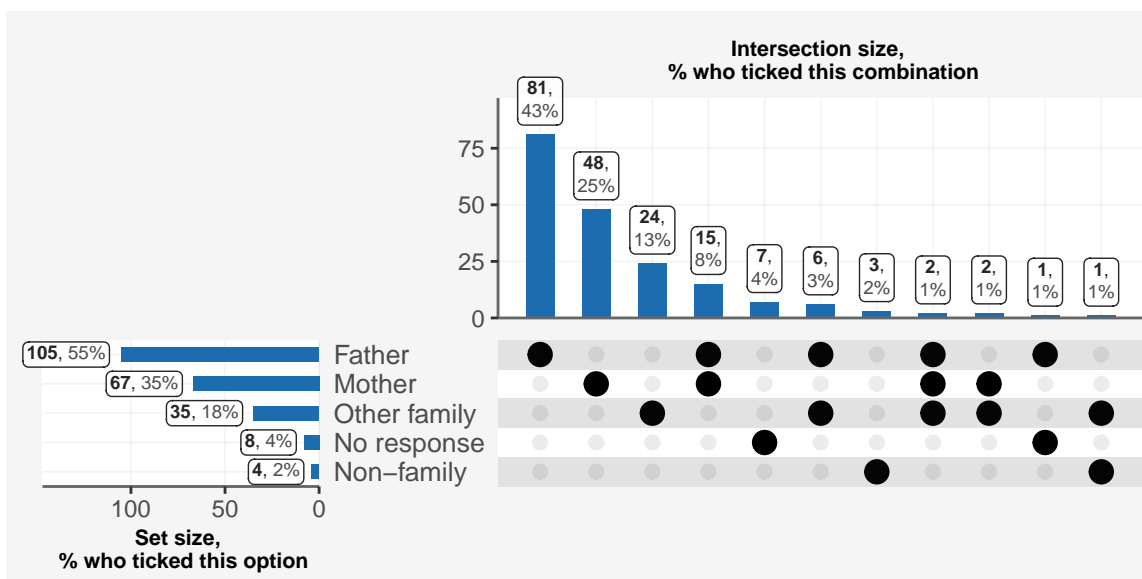

3.2 Are you the principal breadwinner in the household?

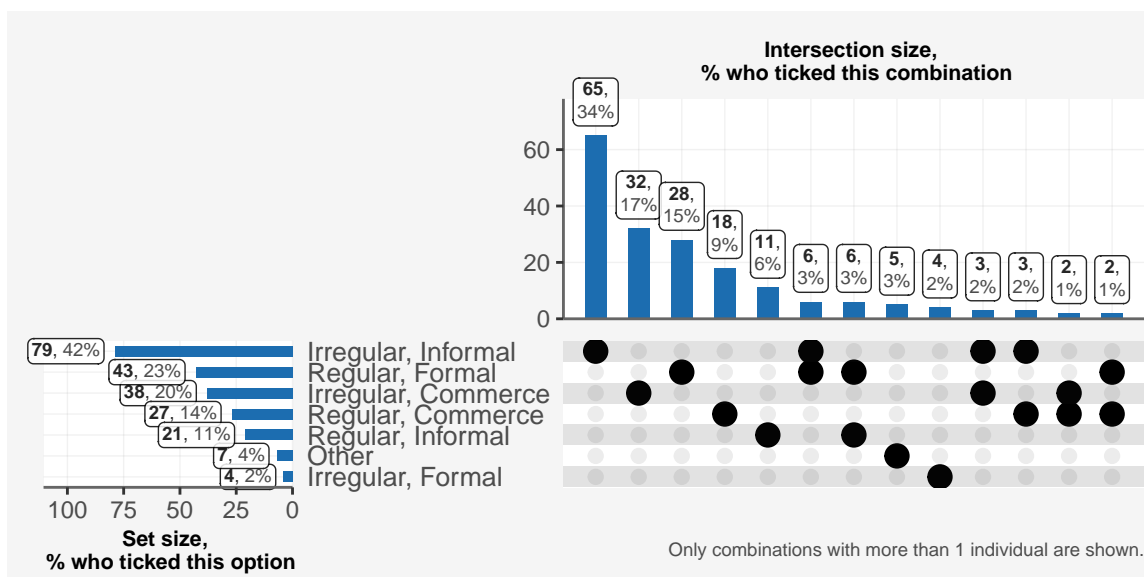

3.3 Who is the principal breadwinner in the household?

(Only answers from household representatives are shown.)

3.4 What are the revenue sources of the family?

(Only answers from household representatives are shown.)

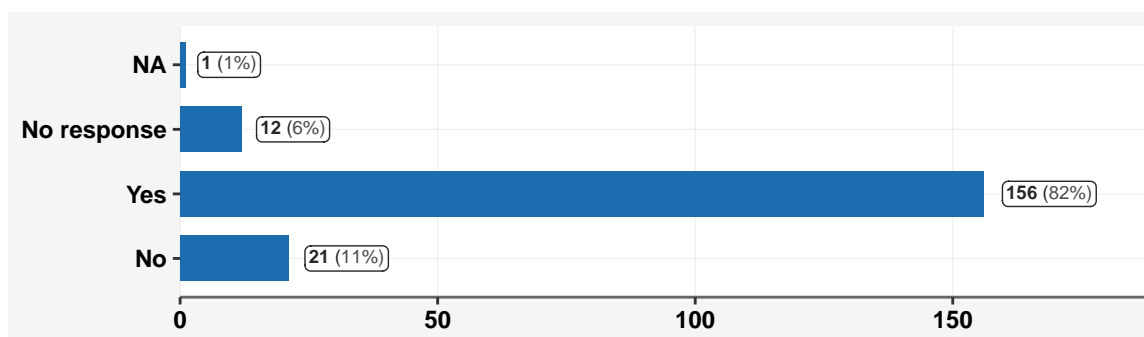

3.4.1 If you answered "Other" to the previous question, specify

(Only answers from household representatives are shown.)

Other income source	n
Diaspora	3
Nrp	2
Cultivatrice	1
Inapproprié	1

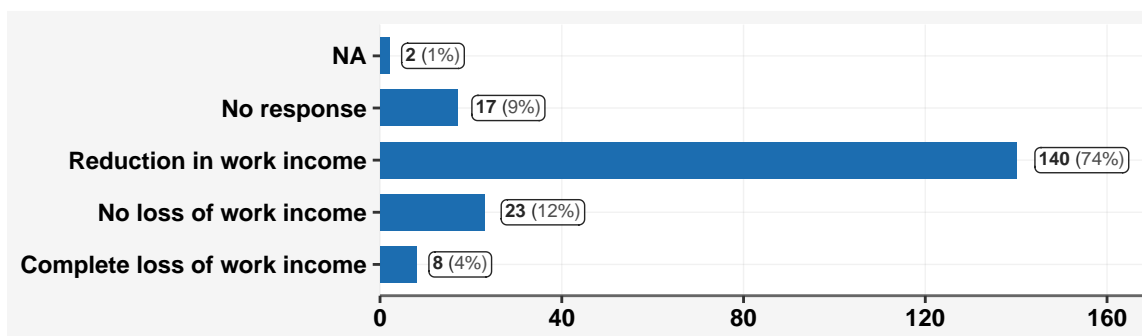

3.5 Since March 1st, has the revenue of the household diminished?

(Only answers from household representatives are shown.)

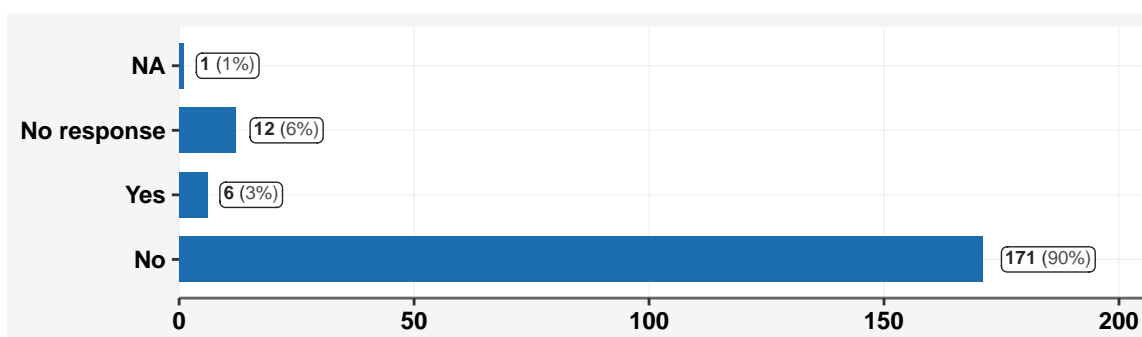

3.6 Has a household member lost their job or had their working hours reduced?

(Only answers from household representatives are shown.)

3.7 Has a household member tested positive for COVID-19?

(Only answers from household representatives are shown.)

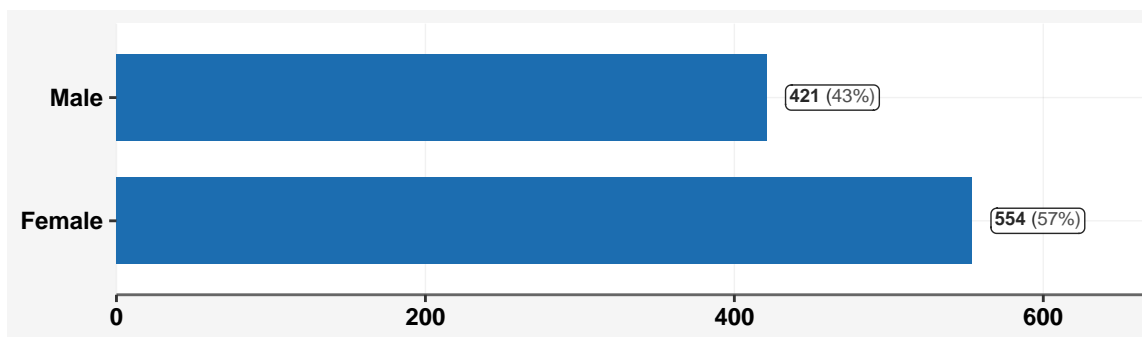

3.7.1 If a household member has tested positive for COVID-19, specify

(Only answers from household representatives are shown.)

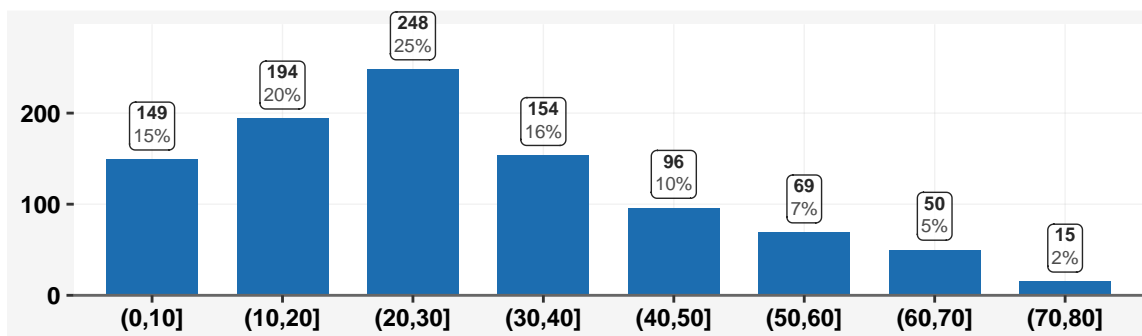

Date of Test	Age	Sex
2020-06-10	50	F
2020-10-04	48	F
2020-04-15	46	H
2020-07-01	70	F
2020-05-15	51	M

4. Socio-administrative information about the surveyed individual

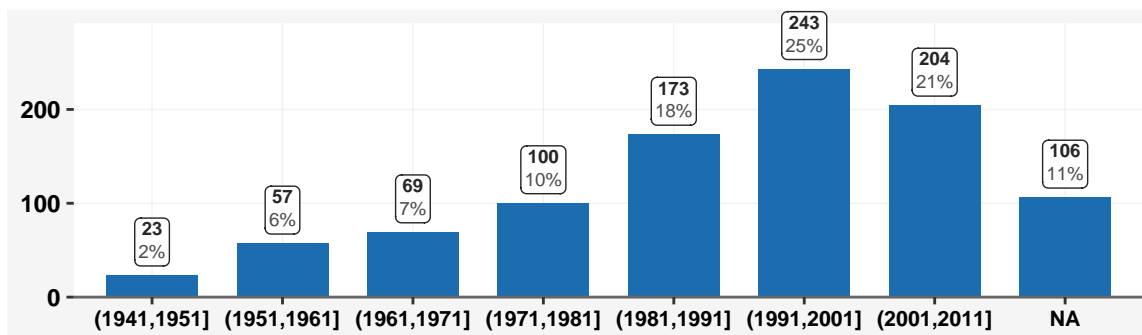

4.1 Sex

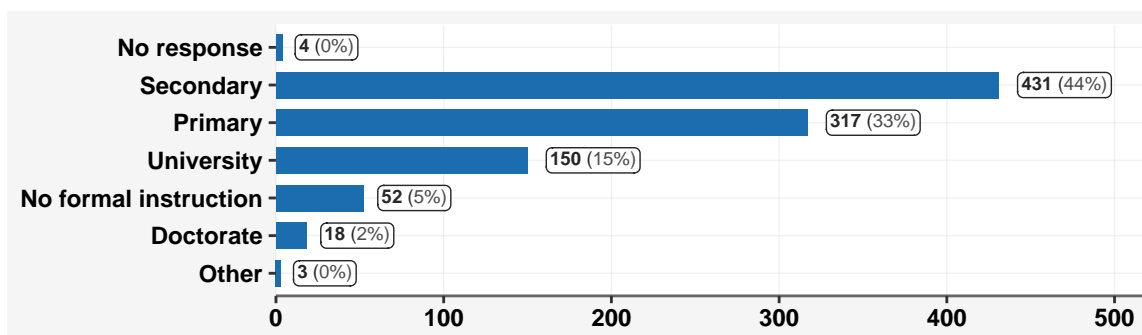

4.2 Age

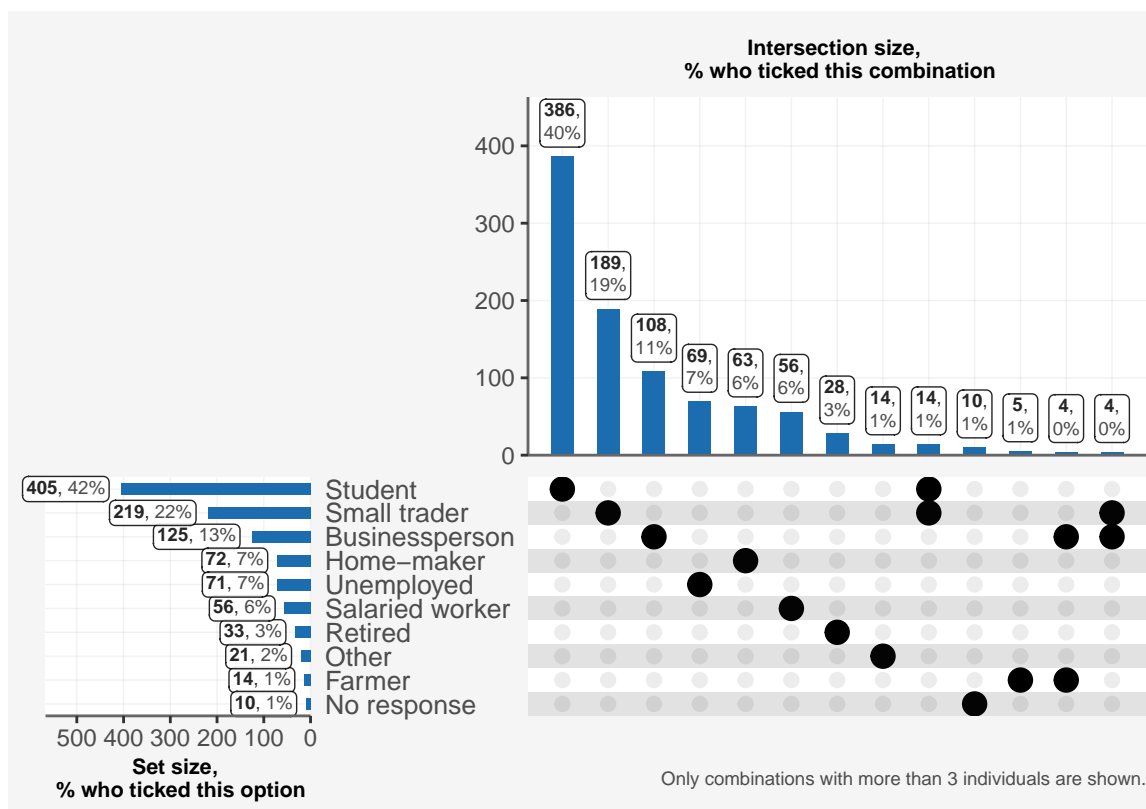

4.3 Date of birth

4.4 Education level

4.5 "Are you currently a..." (occupation)

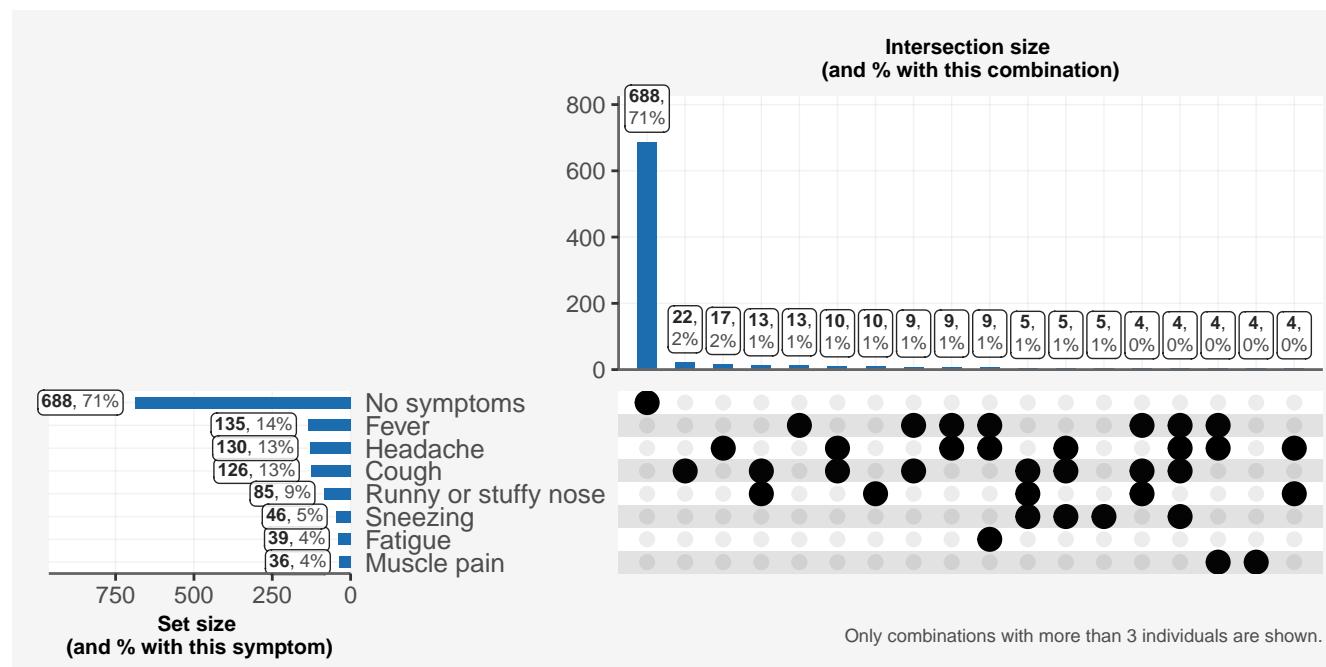

4.5.1 If you answered "Other" to the previous question, specify

Other occupation	n
Eleve	7
Transporteur	2
Agent Communal	1
Consultant Expert Comptable	1
Couturiere	1
Elevage	1
Eleveur	1
Enseignant	1
Estheticienne	1
Infirmiere	1
Rien	1

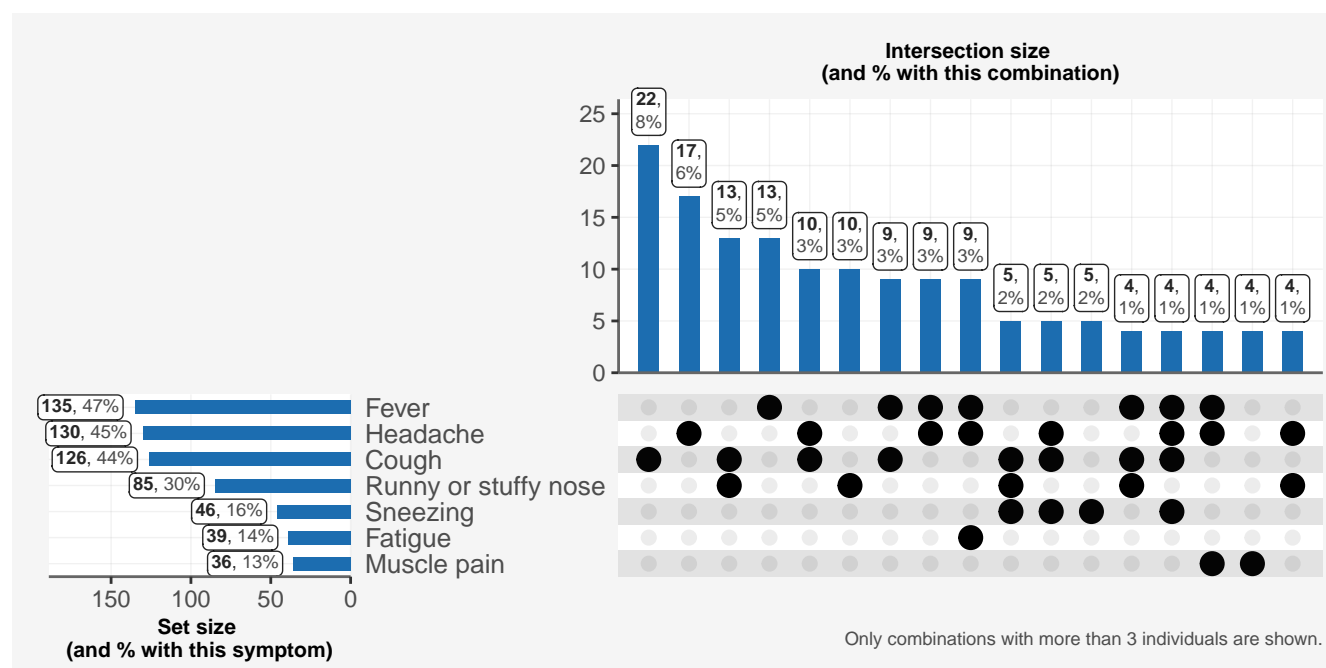

5. Symptoms suggestive of COVID-19

5.1 Since the 1st of March, have you had one or several of the following symptoms?

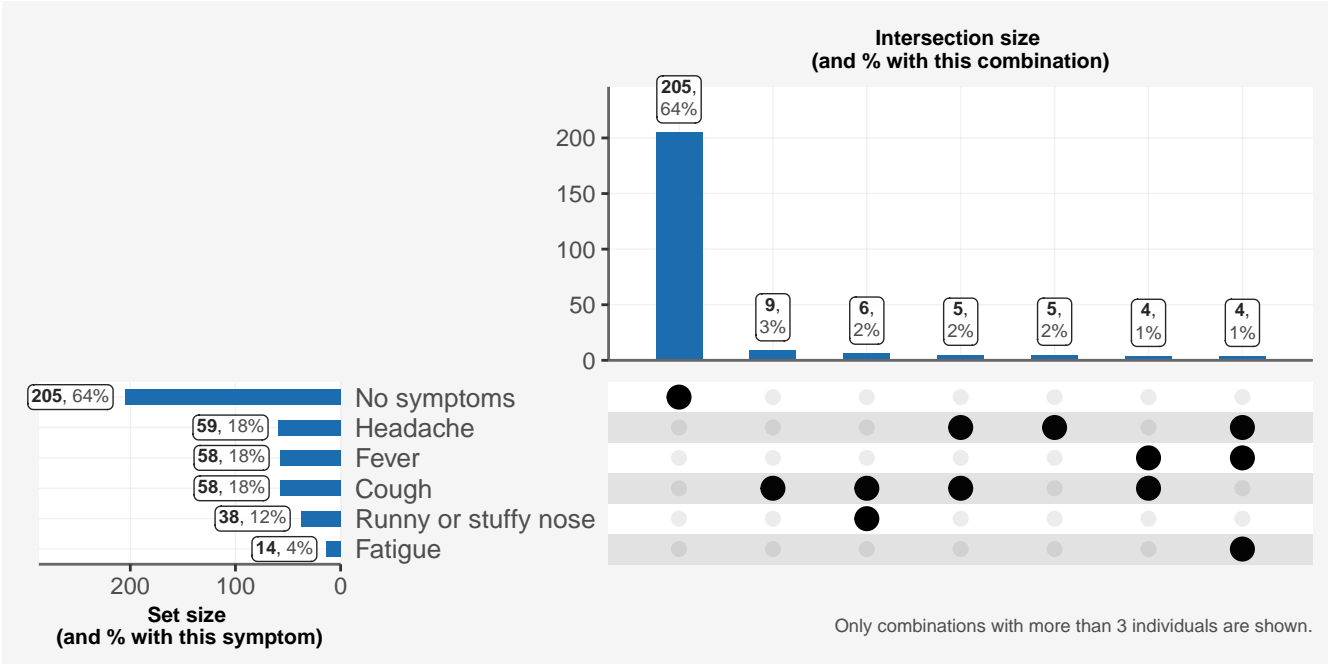

All respondents:

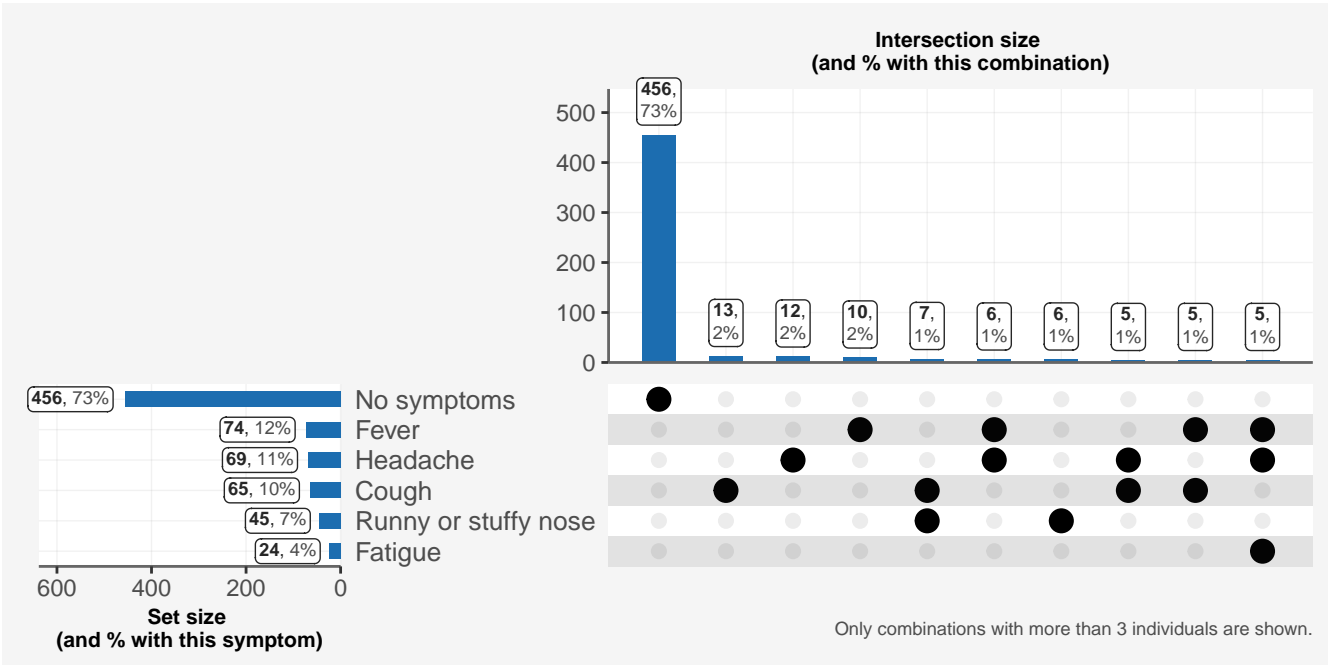

Subset of those who have had symptoms:

Subset of those who had a positive IgG or IgM test:

Subset of those who had negative test results for both the IgG and IgM:

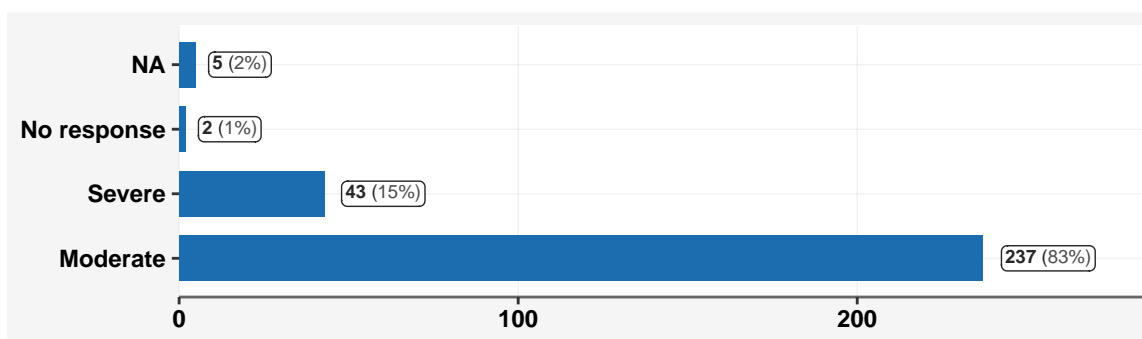

5.1.1 If you answered "other" to the previous question, specify

Additional Symptom	n
constipation	1
Eruption cutanée	1
mal de ventre	1
mal de dos	1

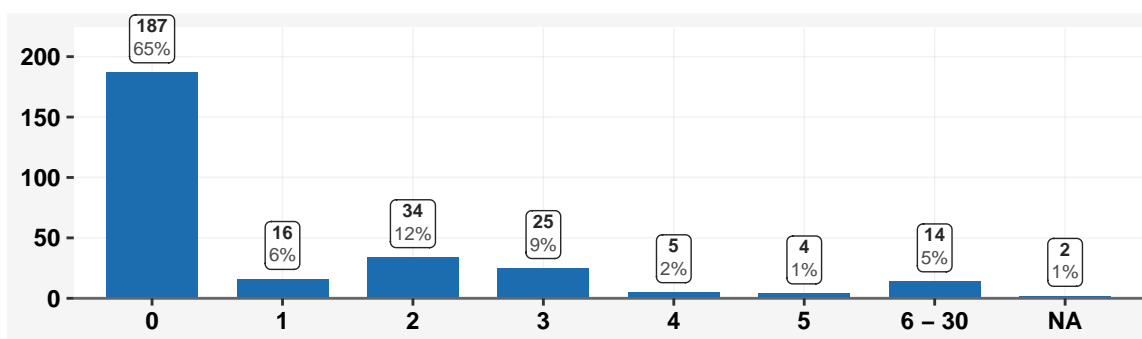

5.1.2 How severe have your symptoms been?

(Among those with symptoms)

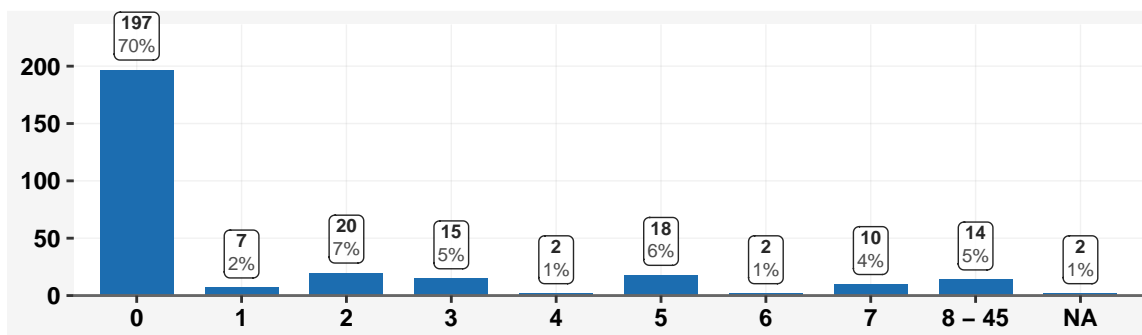

5.1.3 For how many days were you bedridden?

(Among those with symptoms)

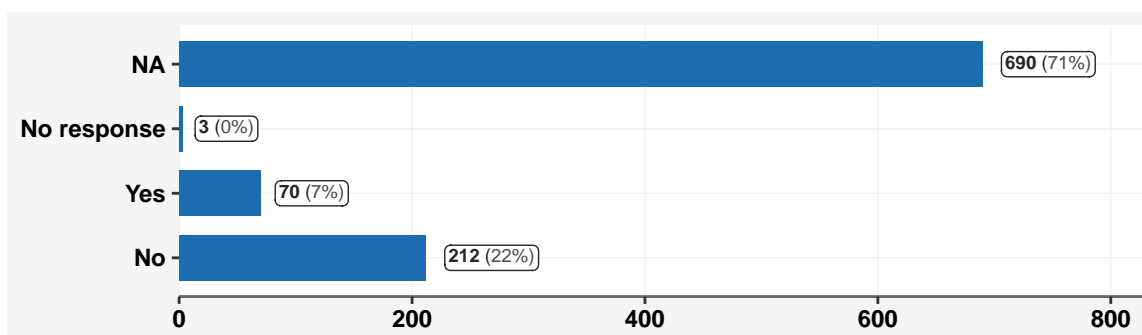

5.1.3 For how many days were you unable to go to work?

(Among those with symptoms)

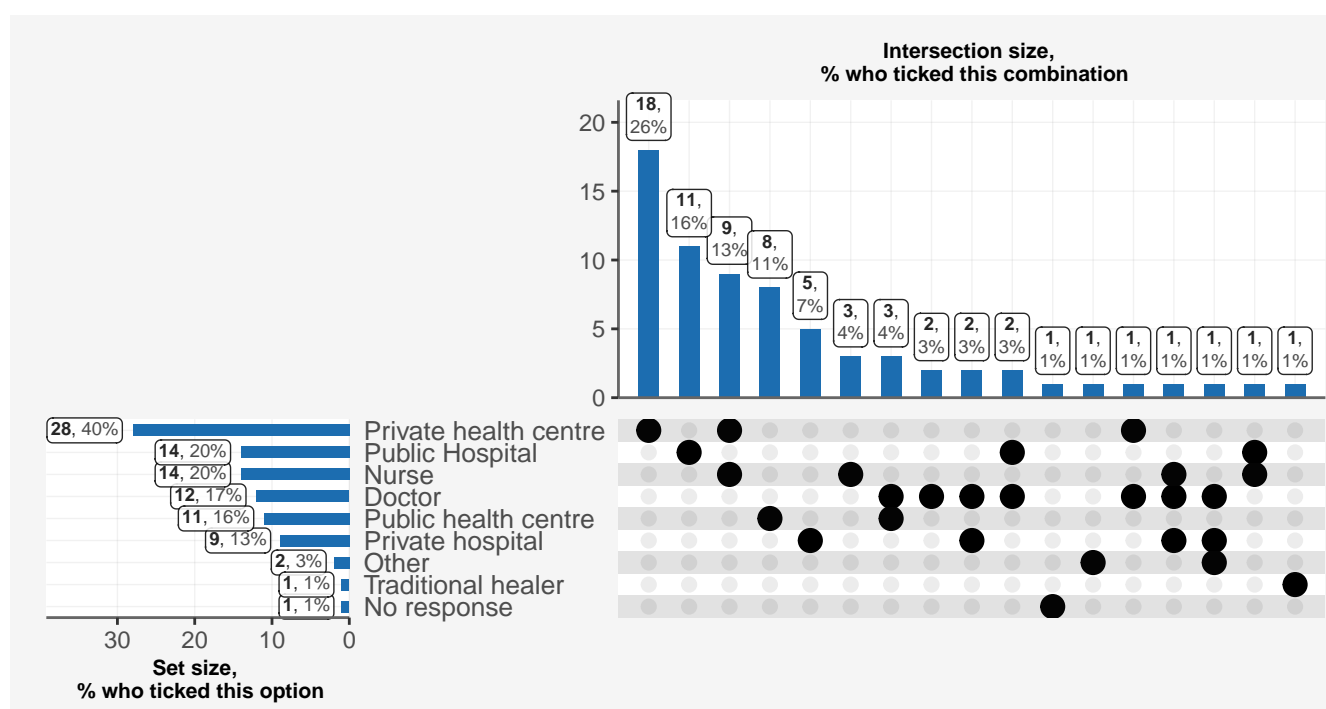

6 Treatment course for symptoms characteristic of COVID-19

6.1 Since March 1st, have you sought medical care for symptoms characteristic of COVID-19?

6.1.1 Who/Where did you consult for your symptoms?

(Among those who have consulted care.)

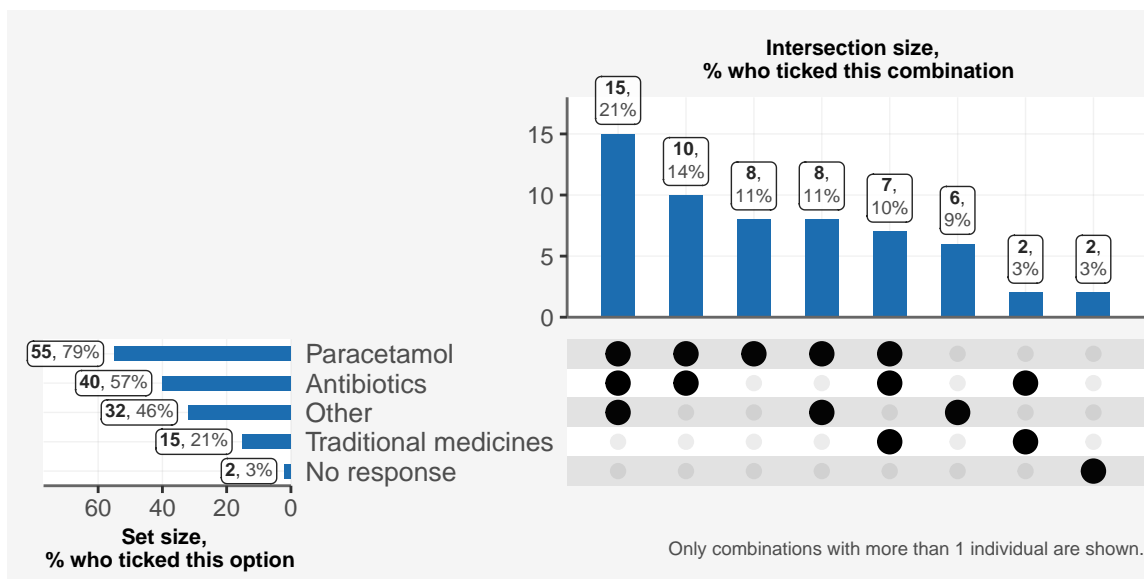

6.1.1.1 If you answered Other to the previous question, specify

Place of consultation	n
Kinésithérapeute	1
Pharmacie	1

6.2 Have you taken one or several medications for symptoms characteristic of COVID-19?

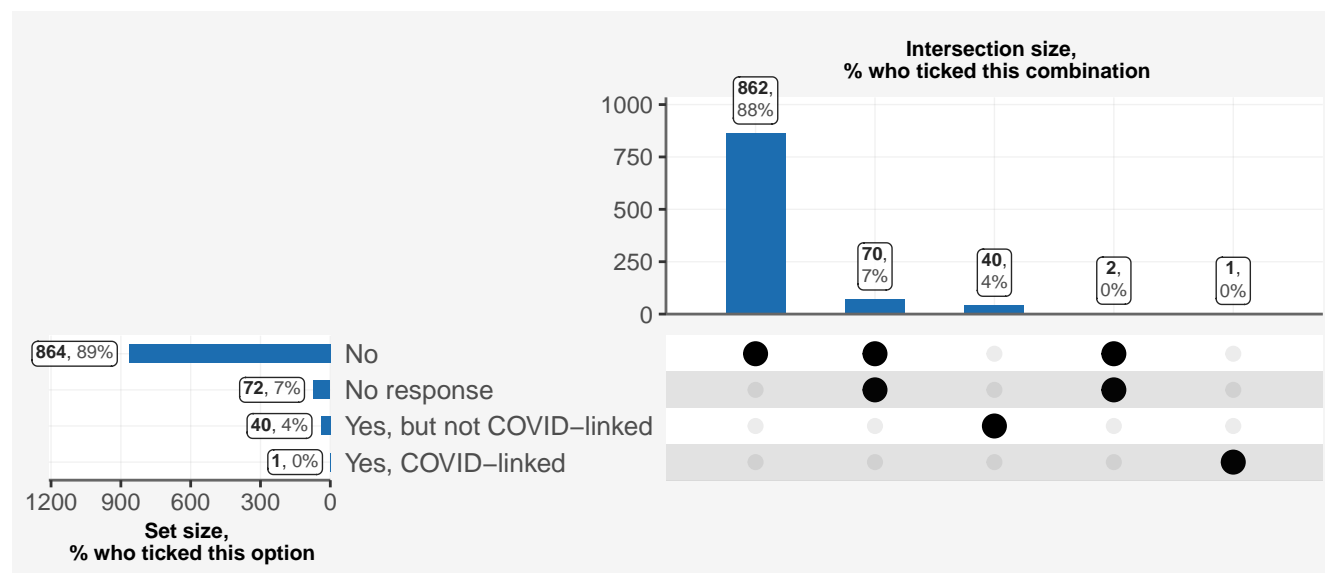

(Among those who have consulted care.)

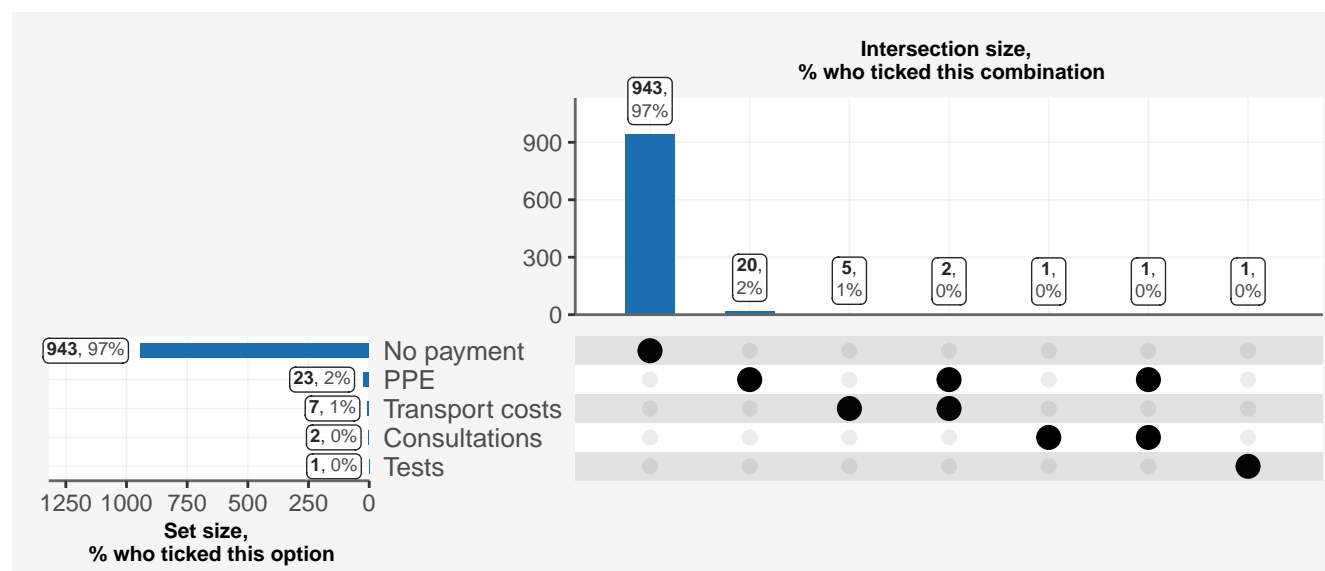

6.2.1 If you answered "Other" to the previous question, specify

Drug	n	Drug	n
Anti Paludeen	15	Cold Cap	1
Mixagrip	5	Combiart	1
Antipaludique	4	Correctol	1
Anti Paludique	3	Décongestionnant Nasal	1
Anti Paludisme	3	Dexa	1
Litacold	3	Duo Cotexin	1
Oublie	3	Exomuc	1
Arthemether	2	Glucose	1
Vermifuge	2	Hpv	1
Allergenes	1	Lunettes Médicales	1
Analgin	1	Lutacold	1
Andipaludeen	1	Malacur	1
Antitussifs	1	Migretil	1
Artefan Comprimé	1	Perfusion ... Ne Connais Pas Le Traitement	1
Artesunate Injectable	1	Peridys	1
Arthemeter	1	Primant	1
Arthemeter Comprimé	1	Quinine Paracétamol Lutacold Amoxixilline	1
Bactoxin	1	Sterimar	1
Bonbons Tom_tom	1	Ventoline. Aspirine. Mucoxine. Amlibon 30. Omeprazole.	1
Cefixime	1	Vit C	1

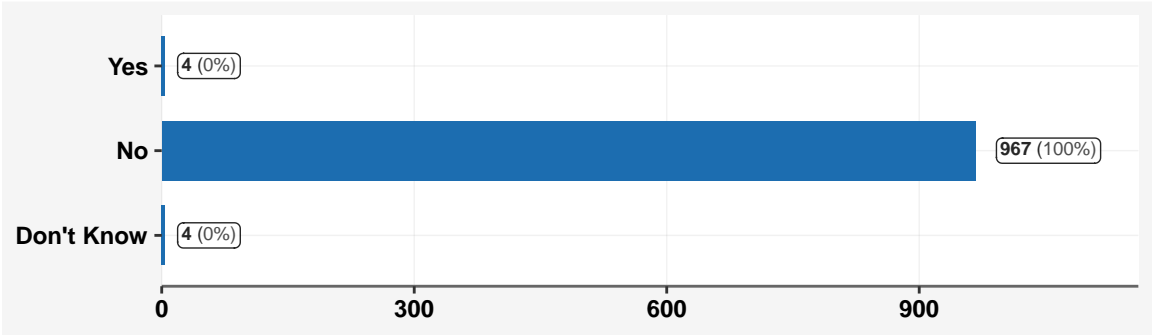

6.4 Have you been hospitalized since March 1st?

6.5 If you have taken steps to access care regarding suspected or confirmed COVID-19, did you pay?

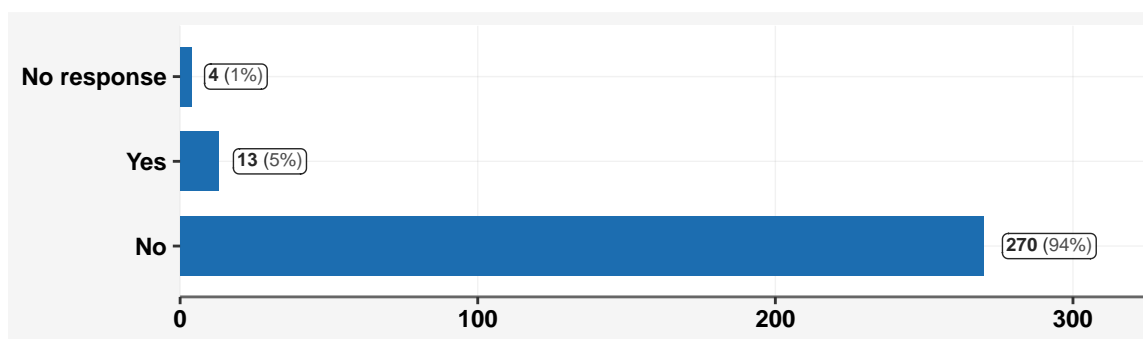

6.6 Have you participated in a prior COVID 19 Study?

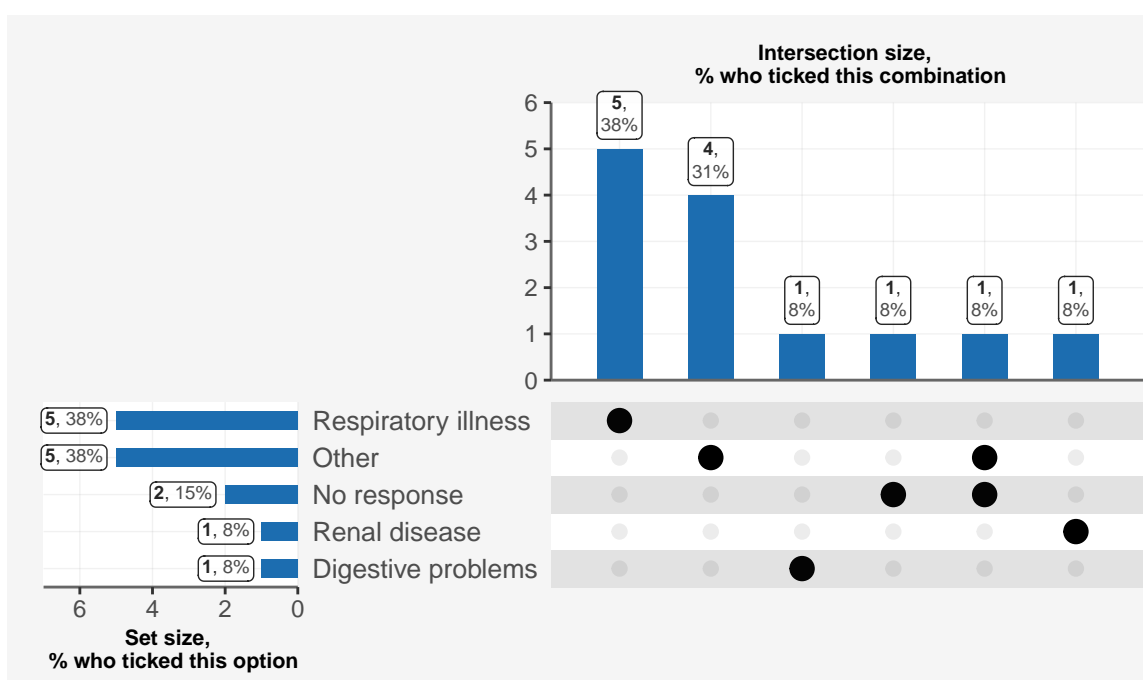

7 Sequelae following COVID-19-like symptoms

7.1 Have you had health problems which have persisted after having COVID-like symptoms?

(Subsetted to those who showed COVID-like symptoms)

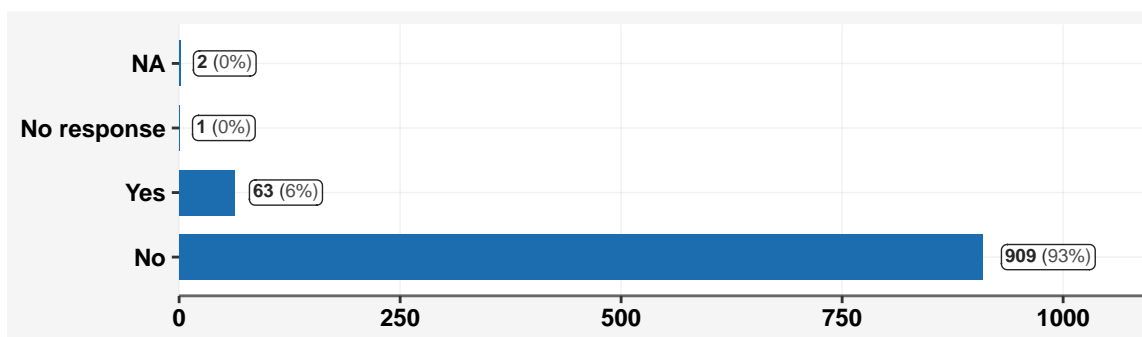

7.1.1 If yes to the prior question, specify

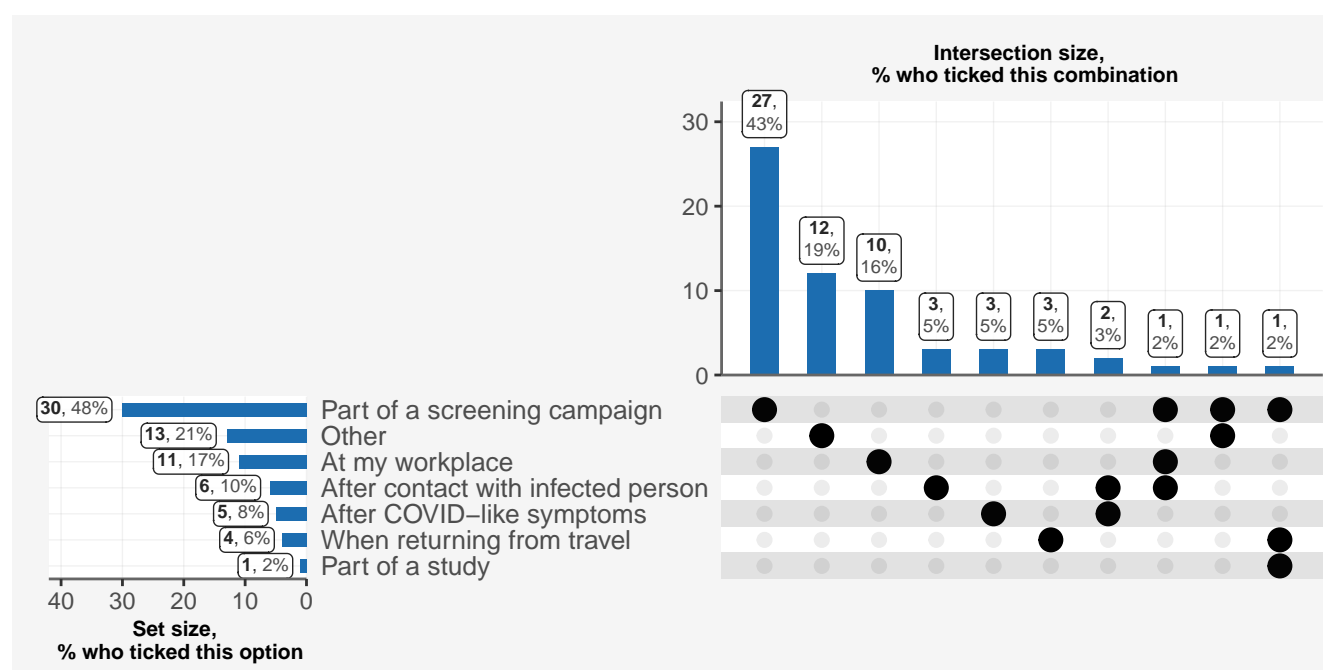

8 COVID-19 tests carried out before the visit

8.1 Have you carried out any screening test for COVID-19?

8.1.2 If you have previously had a COVID test, for what reason was the test done?

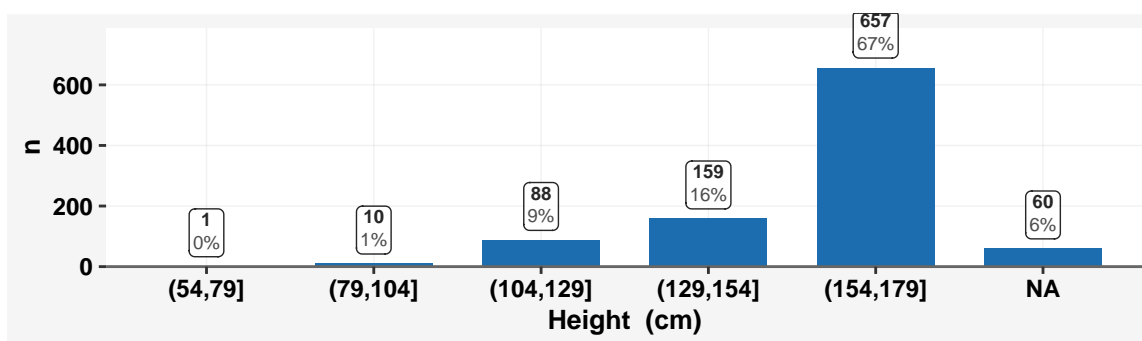

8.1.1.1 If you responded "Other" to the previous question, specify

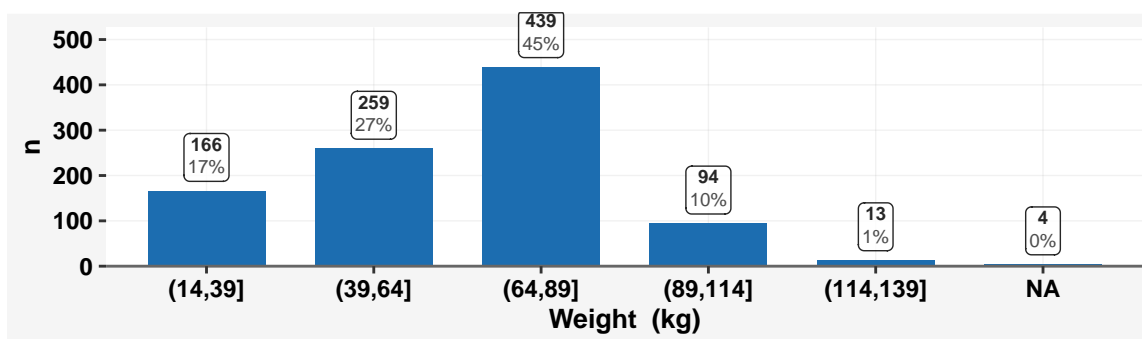

Reasons for testing	n
volontaire	2
Dans le cadre de suspicion d'un membre de la famille	1
Exigé par l'administration à l'école	1
Hasard	1
Inscription à l'université	1
pour avoir accès à un service public	1
Pour un travail	1
Pour un voyage	1
rentrée scolaire des enfants	1
Test volontaire	1
Tests volontaires	1
Voyage	1

9 Comorbidities, risk factors

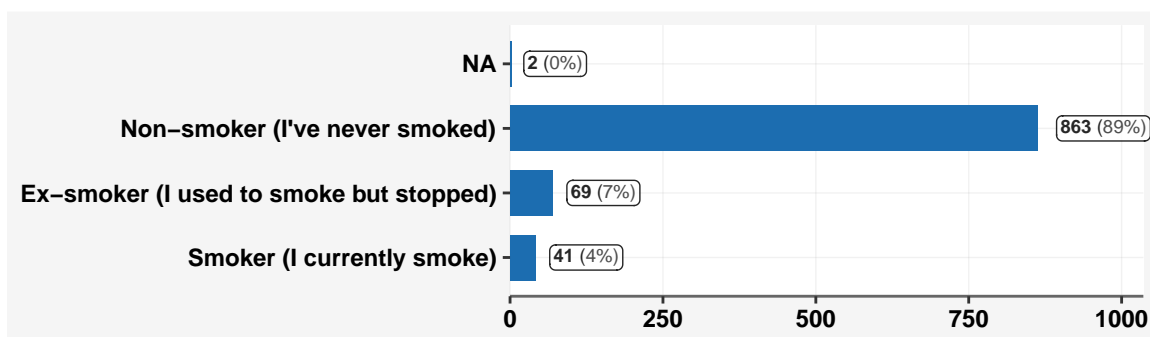

9.1 What is your height (in cm)?

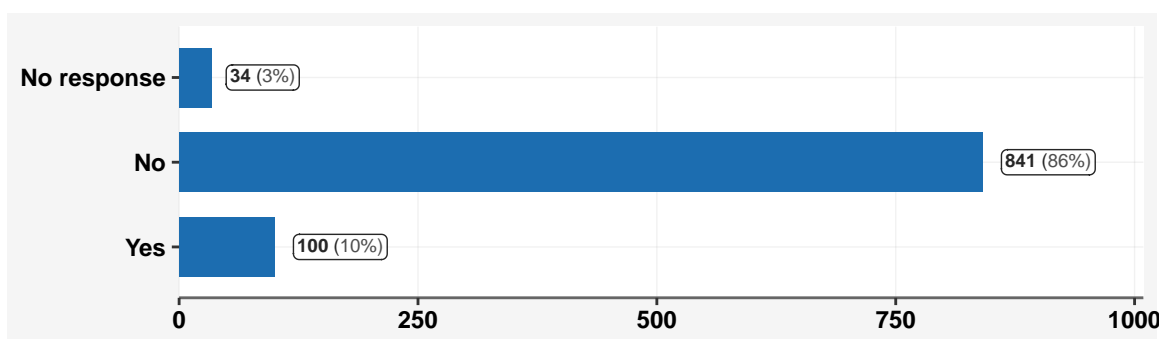

9.2 What is your weight (in kg)?

9.3 Are you currently a smoker?

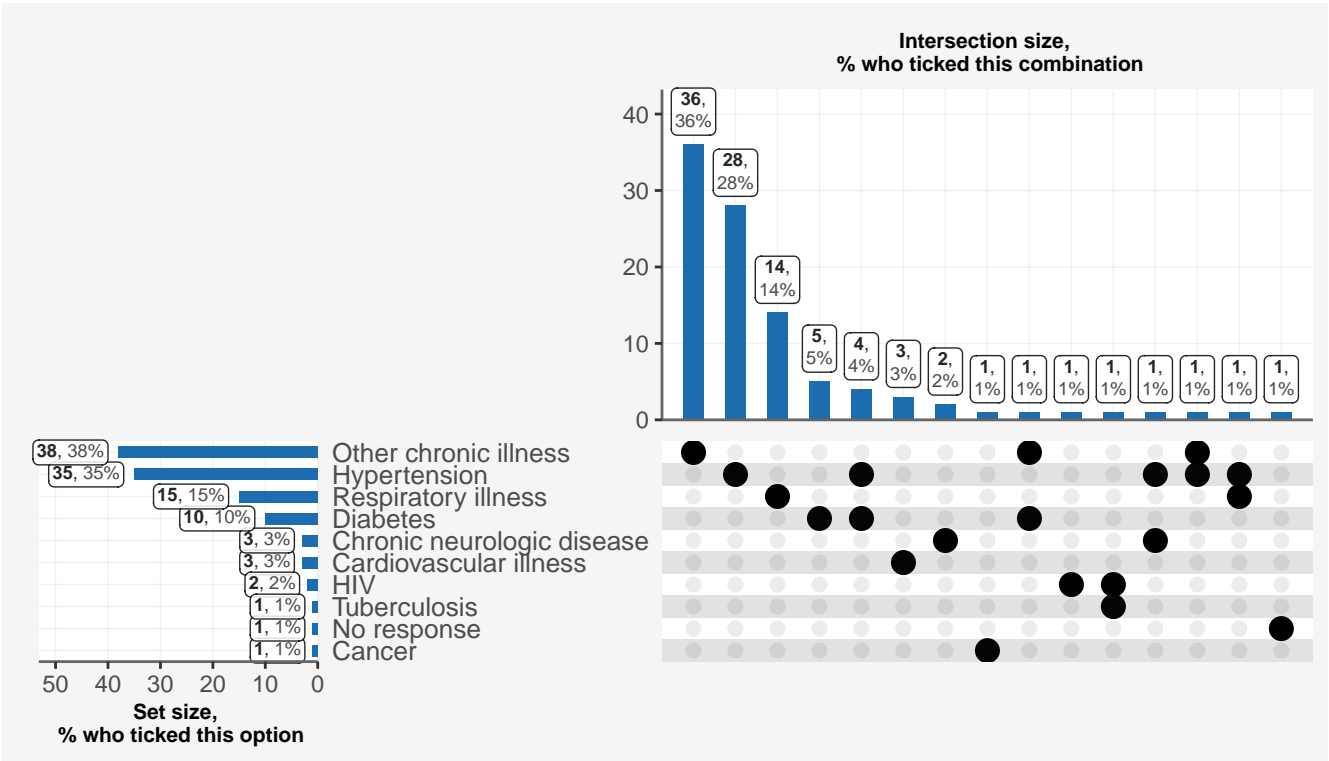

9.4 Do you suffer from any chronic health problems?

9.4.1 If you suffer from any health issues / chronic diseases, specify

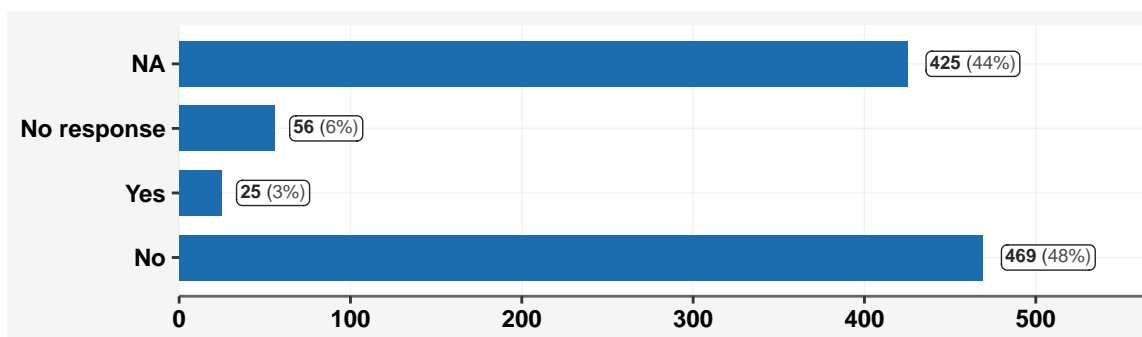

(Only those who indicated health issues are shown. Thus, the denominator of the percentages is those with indicated issues.)

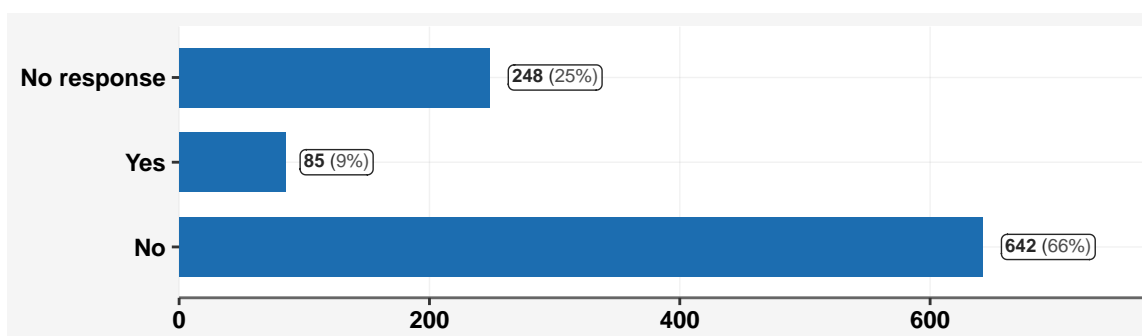

9.4.1.1 If you have answered "Other" to the previous question, specify

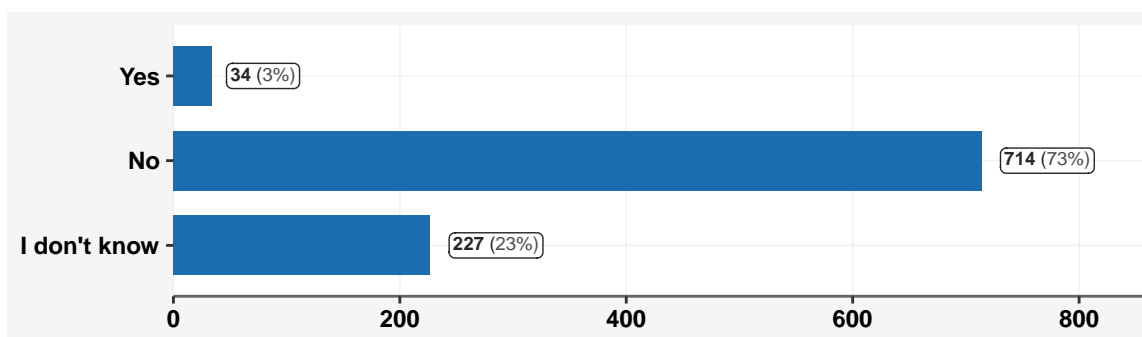

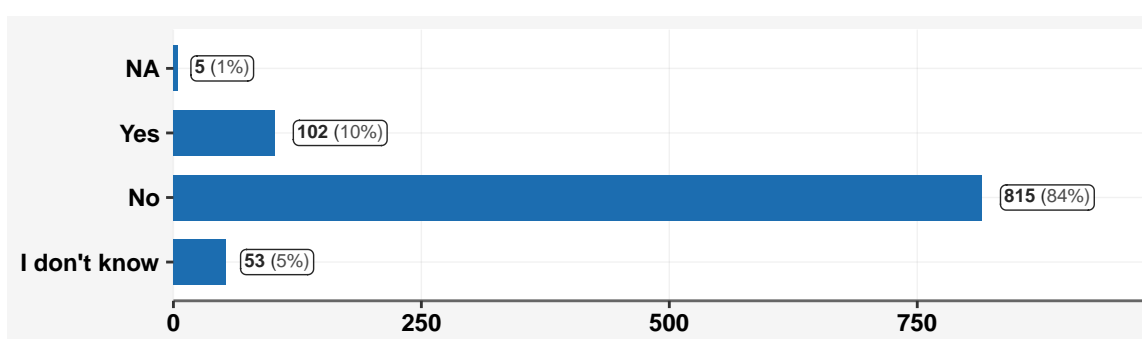

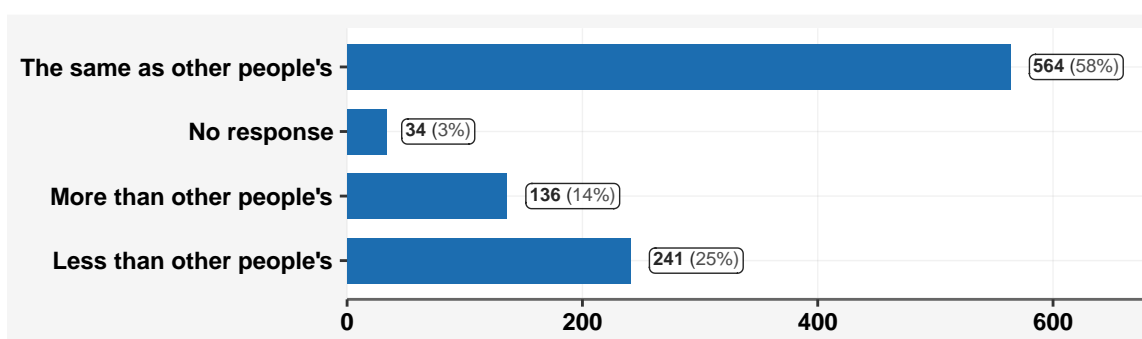

cat_chronic_other	n
Gastrite	5
Mal De Nerfs	3
Mal Gastrique	2
Rhumatisme	2
Anemie	1
Arthrose	1
Arthrose Du Dos Et Du Genou	1
Asthme	1
Astigmatie	1
Athrose	1
Bronchite	1
Cataracte	1
Crampes	1
Deficit En G6pd	1
Douleurs Pelviennes	1
Hemophilie	1
Hemorroides	1
Mal Aux Genoux	1
Mal D Estomac	1
Mal D'yeux Et Migraine Intense	1
Mal De Dents	1
Mal De Dos	1
Mal De Nerf	1
Mal De Ventre Constant	1
Mal Voyant	1
Maux De Ventre (Amibes)	1
Membres Inferieurs Douloureux Sans Diagnostic Connu.	1
Migraines	1
Myopie	1
Occulaire	1
Palpitations	1
Peau Qui Demange Avec Prurit	1
Sinusite	1
Ulcere Gastrique	1
Vision Flou	1

9.5 Are you pregnant?

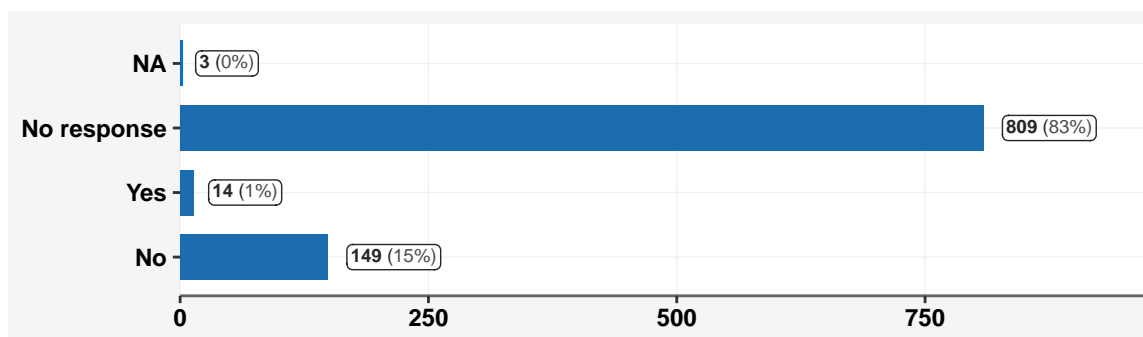

9.6 Do you take medications regularly?

9.8 Have you been in contact with someone who had confirmed or suspected COVID?**9.9 Have you been in contact with someone coming from abroad?****9.10 Do you think that your risk of getting infected with the new virus is...?**

10 Difficulty of access to care

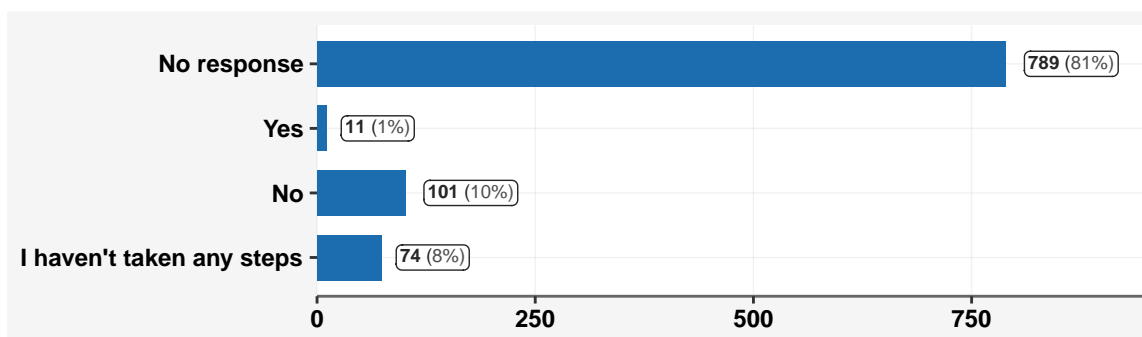

10.1 Since March 1st, have you had difficulty in obtaining medical care?

10.1.1 If you had difficulty in obtaining medical care, specify

Difficulty	n
Asperites,Melemt 1000	1
Collyres	1
Consultation Chez Le Gastro	1
Consultation Et Achat De Medicaments	1
Consultation.	1
Difficultes Financieres	1
Finances	1
Financiere	1
Fuite De L'hopital Sur Fond De Rumeur	1
L'argent Pour Payer Mes Medicaments	1
Ophtalmologie,Seuls Les Urgences Etaient Accessibles	1
Rdv Chez Le Dentiste	1
Soins Et Controle Hta Et Diabete	1
Suivi Du Diabete	1

10.2 Since the first of March, have you been unable to access your usual medications?

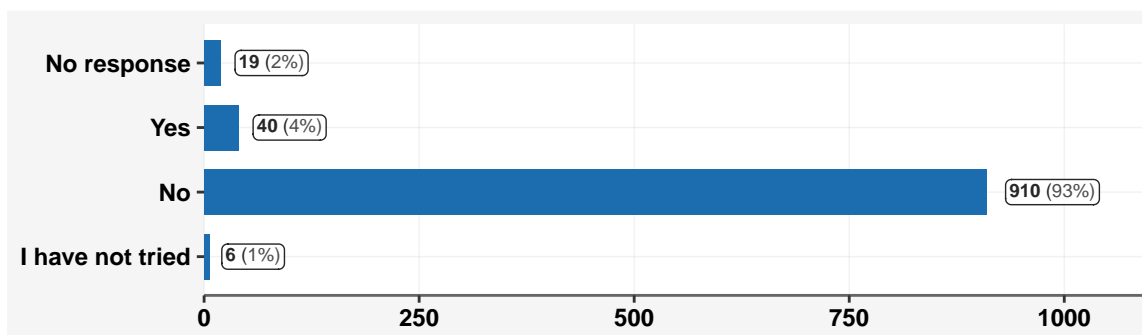

10.2.1 If you have been unable to access your medications, what are the medications concerned?

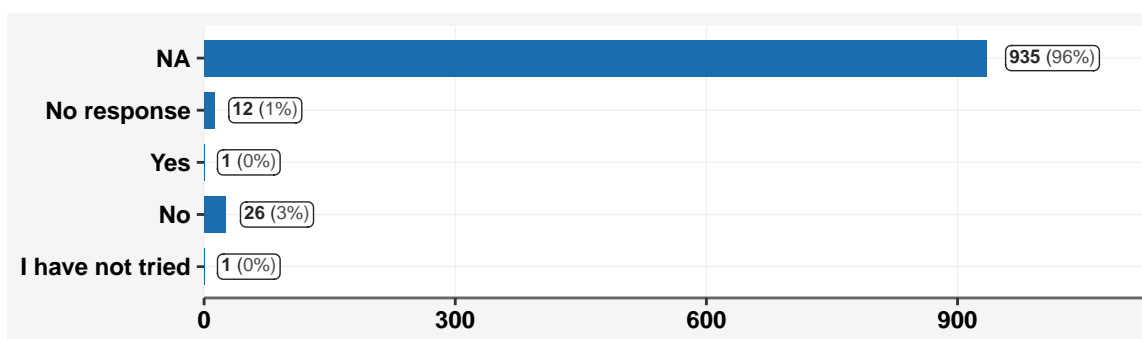

Medication	n
Collyres	1
Corticoides	1
Diapride 4	1
Escodyne,Migretil	1
Fenegan 25	1
Fer Acide Folique	1
Konpon, Cimetidine	1
Maalox Au Niveau Du Centre De Sante	1
Metformine Hci,Hydrochlorothiazide,Aspirine Cardio,Tanganil Pro	1
Turbuhaler	1
Zoprazid	1

11 Financial barriers to medical access

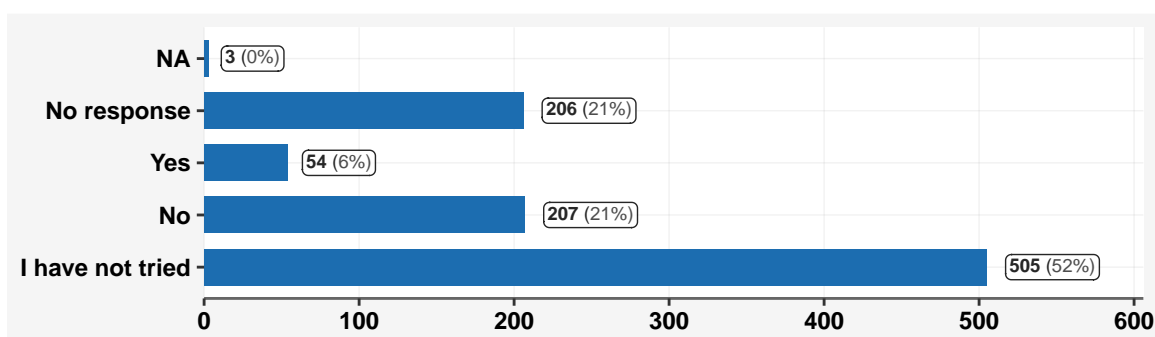

11.1 Do you have health insurance?

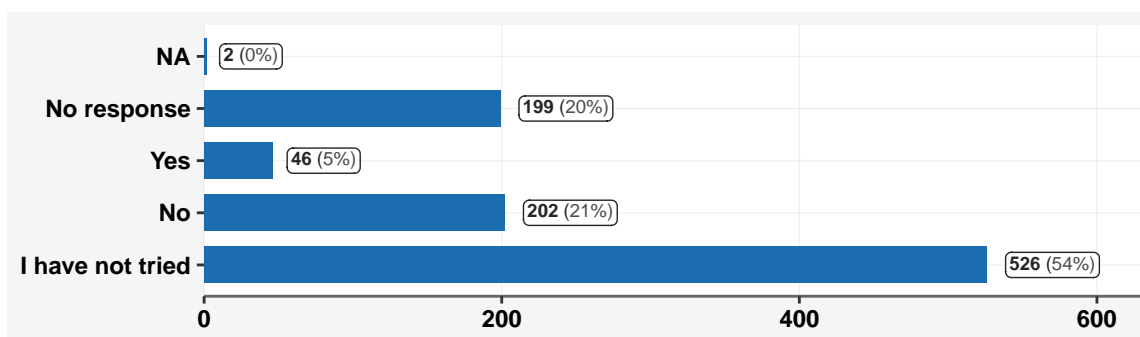

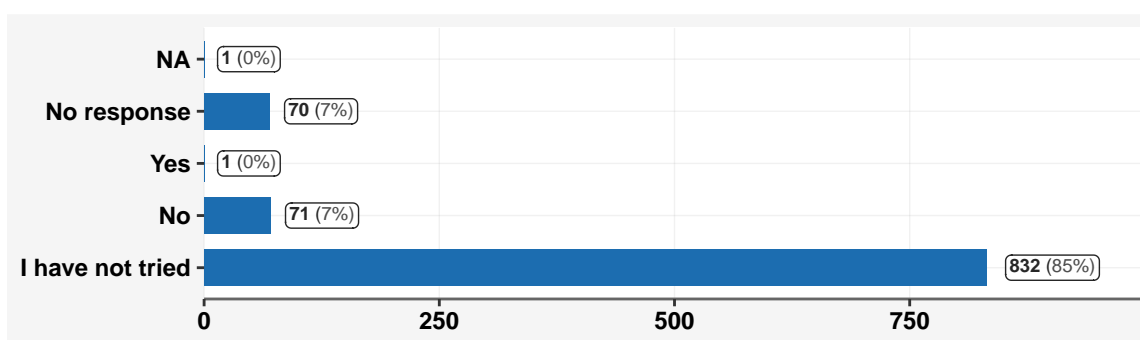

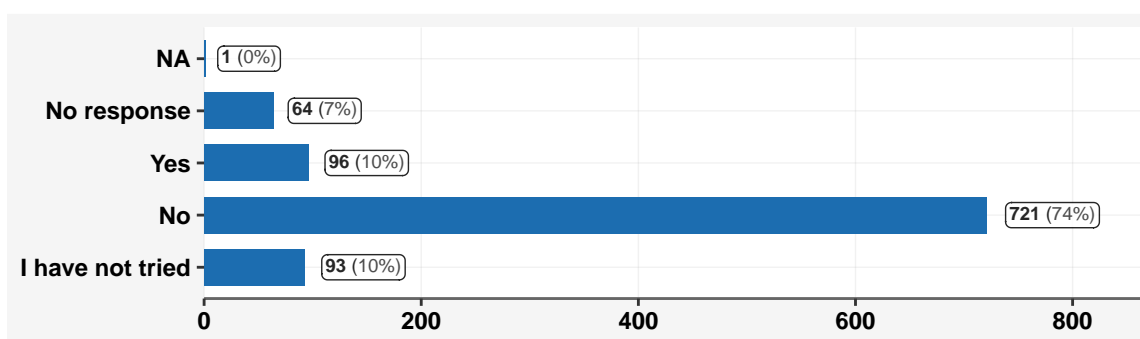

11.2 Since March 1st, have you had difficulty in paying your insurance primes?

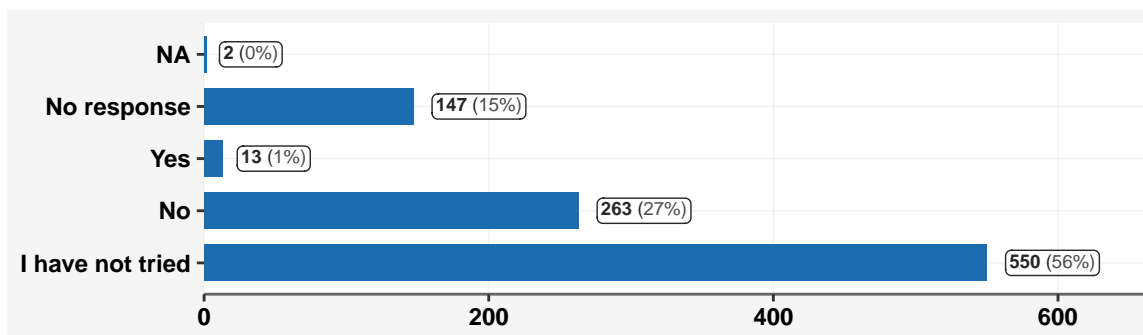

11.3 Since March 1st, have you encountered financial difficulty in paying for medical care or medications?

11.4 Since March 1st, have you experienced delays in care for financial reasons?**11.5 If you have sought out medical care due to suspicion or confirmation of COVID, did you have difficulty in paying for transport costs, care or medication?****11.6 Since March 1st, have you consulted care for non COVID-like symptoms?**

12 Other barriers to medical access (geography, perception)

12.2 Have you had difficulty in accessing medical centers due to inavailability or raised prices of transport?

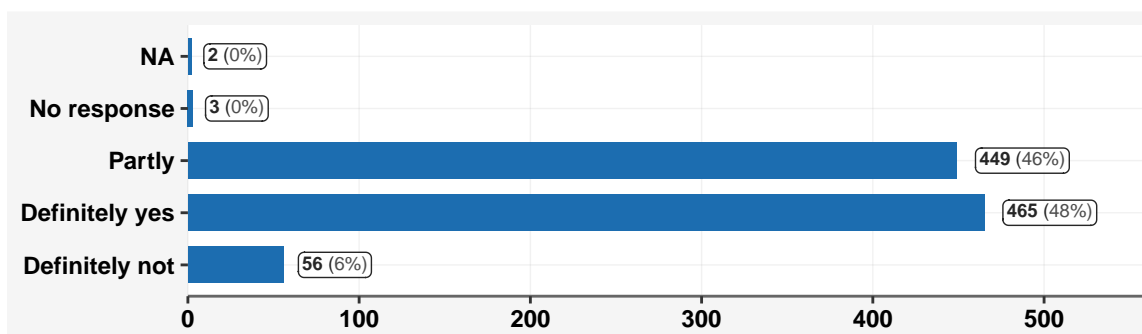

12.2.1 Explain your answer to the previous question

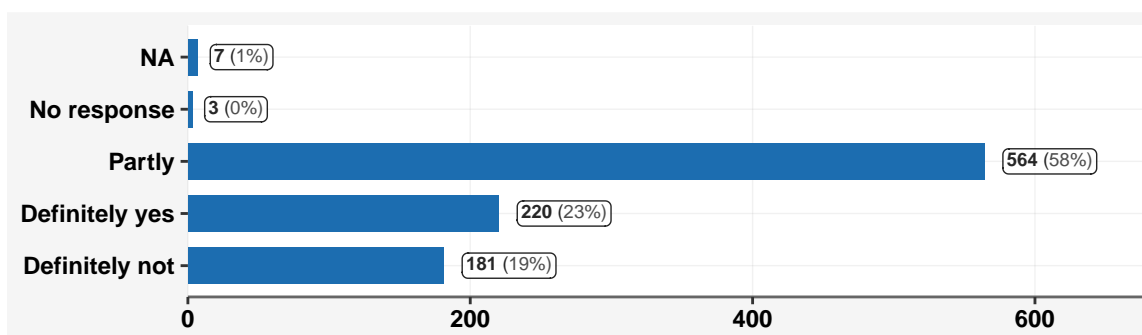

Item	n	Item	n
rien n'a change	54	inappropriée	1
comme toujours	20	la prise en charge est relâchée	1
ras	19	le respect des mesures barrières y est dérigueur	1
tout est normal	19	le service s'est amélioré dans les hôpitaux	1
tout va bien	8	les grands hôpitaux reçoivent mal les patients	1
rien	7	les grands hôpitaux sont dangereux	1
rien a change	5	les hôpitaux continuent de recevoir comme avant	1
rien n'a change	5	les hôpitaux sont plus sécurisés	1
les mesures barrières sont relâchées	4	les hôpitaux sont plus strictes	1
rien a changer	4	les mesures barrières sont devenues dérigueur	1
aucune des propositions	3	les mesures d'hygiène sont accentuées	1
normale	3	les services sont lents	1
comme d'habitude	2	les structures de santé sont ouvertes	1
je ne sais pas	2	les structures privées prennent plus soin des patients	1
les hôpitaux sont vides	2	les structures sanitaires sont vides	1
les structures privées sont plus accueillantes	2	ne sais pas	1
rien de tout ça	2	ne sait pas	1
accueil déplorable	1	normale	1
aucune	1	normal	1
aucune différence entre aujourd'hui et avant	1	nrp	1
aucune réponse	1	pas été malade	1
c'est accessible	1	plus accueillants	1
c'est pareil qu'avant	1	que les hôpitaux sont plus sécurisés	1
comme avant	1	que les mesures d'hygiène doivent être plus accentuées	1
comme avant il faut juste prendre ses précautions	1	rien n'a changé, trop de racket	1
comme d'habitude	1	structures privées sont plus fiables	1
elle ne s'y est pas intéressée	1	toujours comme avant	1
hôpital central vide, hôpital des sœurs surcharge	1	tout est comme avant	1
il était informé de l'existence de centres de prise en charge covid 19	1	tout fonctionne normalement	1
inappropriée	1		

13 Behavior, hygiene, protective measures, physical distancing

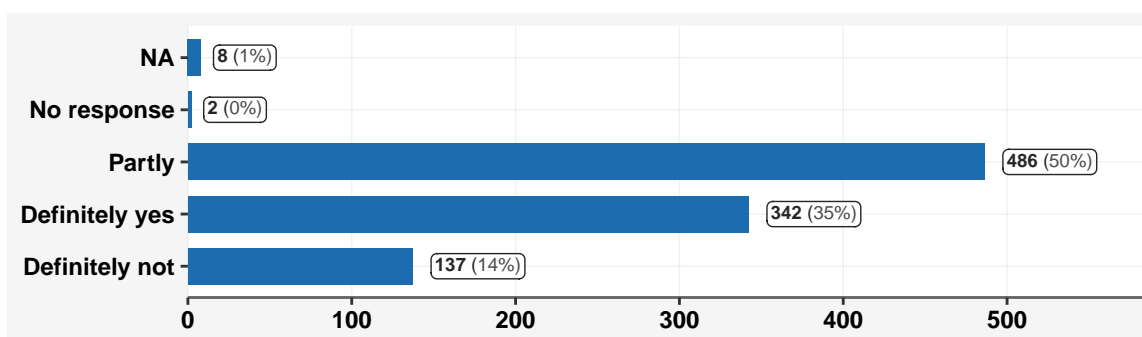

13.1 Do you respect the simple rules of hygiene (wash hands frequently, sneeze into your elbow, use a disposable handkerchief, etc.)?

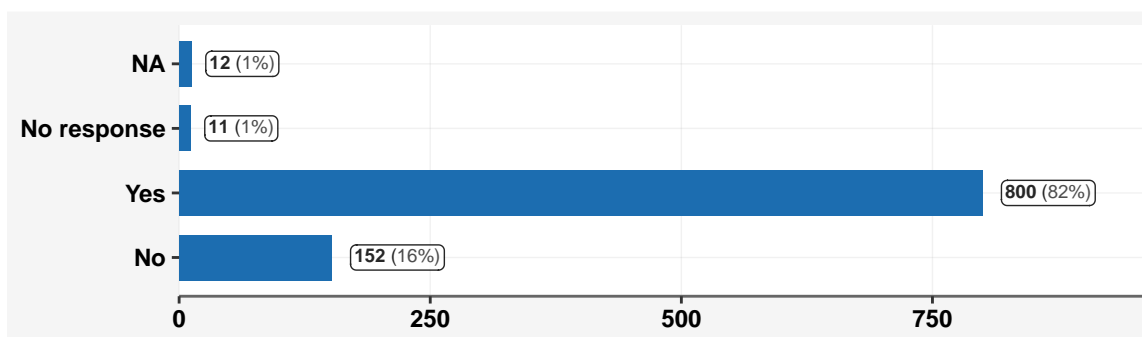

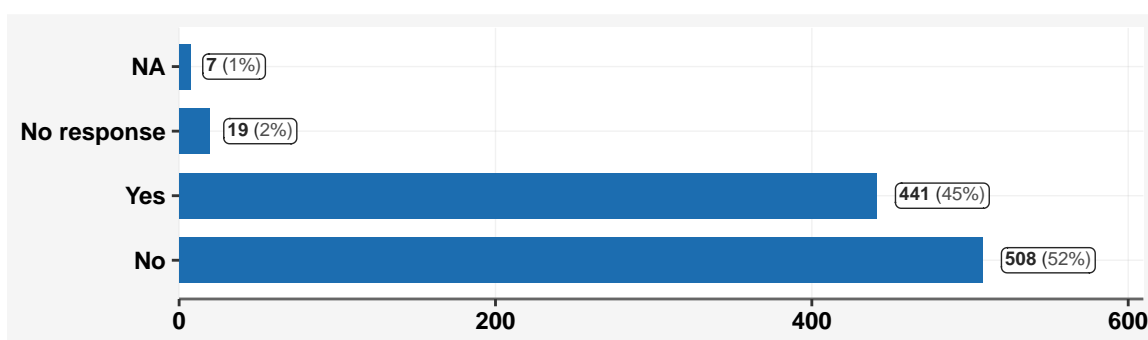

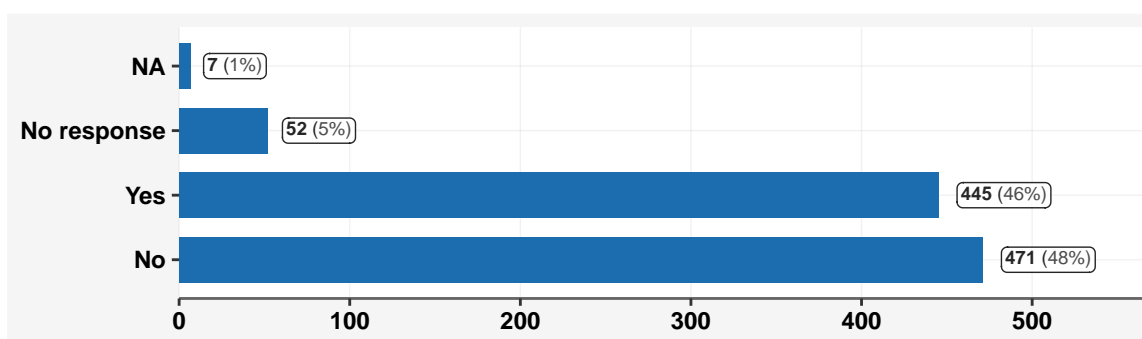

13.2 Do you respect the simple rules of social distancing (avoid handshakes or hugs, avoid unnecessary outings, etc.)?

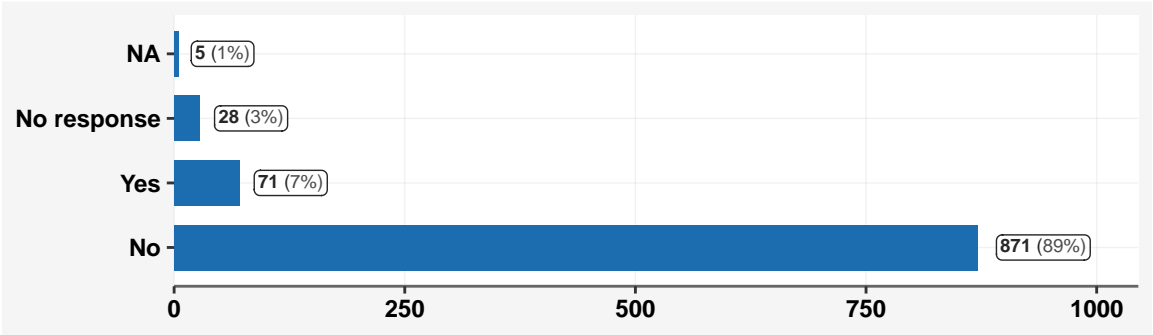

13.3 Since March 1st, have you remained confined?

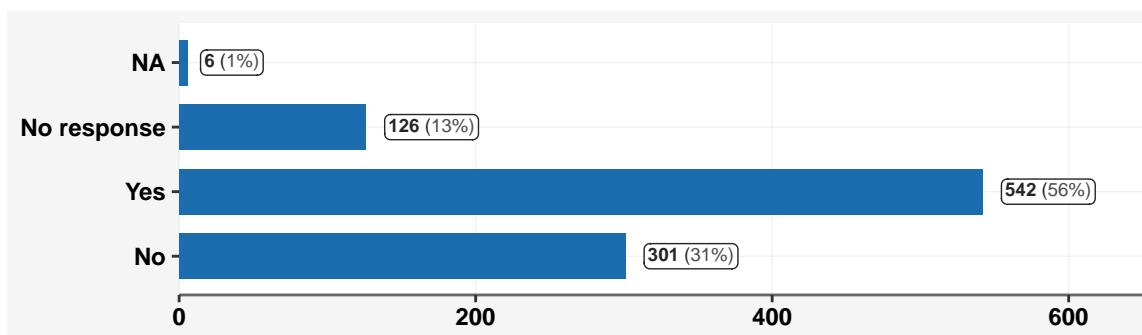

13.4 Since March 1st, have you been worried about contracting COVID-19?**13.5 Since March 1st, have you been worried about the reaction of the people around you if you were to contract COVID-19?****13.6 Do you think that people who contract COVID-19 are stigmatised and avoided by others?**

13.7 Would you hide your illness if you were to contract COVID-19?

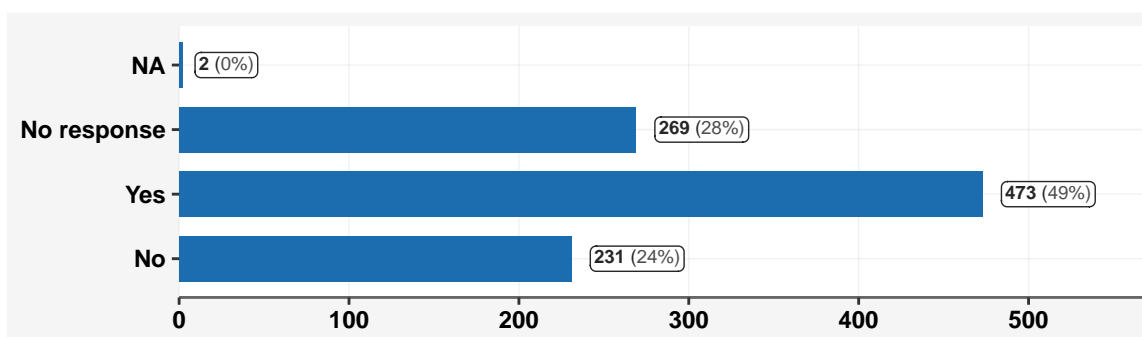

14 Impact of the COVID-19 confinement on you

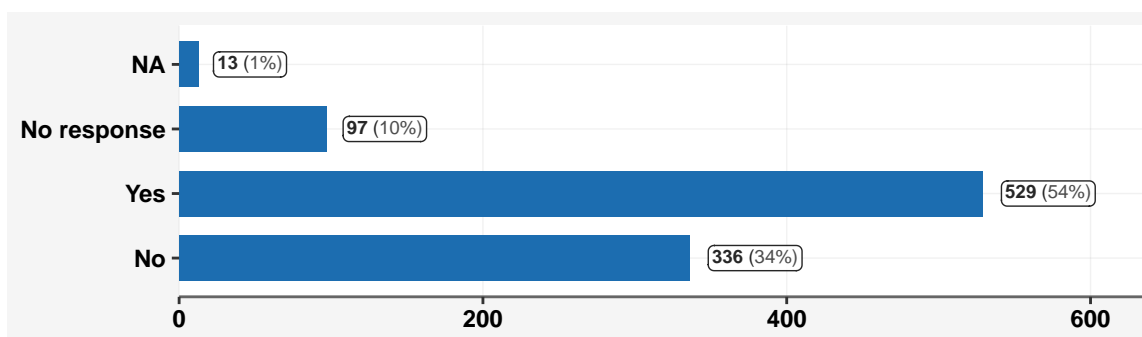

14.1 Since March 1st, have you been unable to carry out your daily activities (other than work, such as visiting family, making meals, taking care of the children...) because of the confinement?

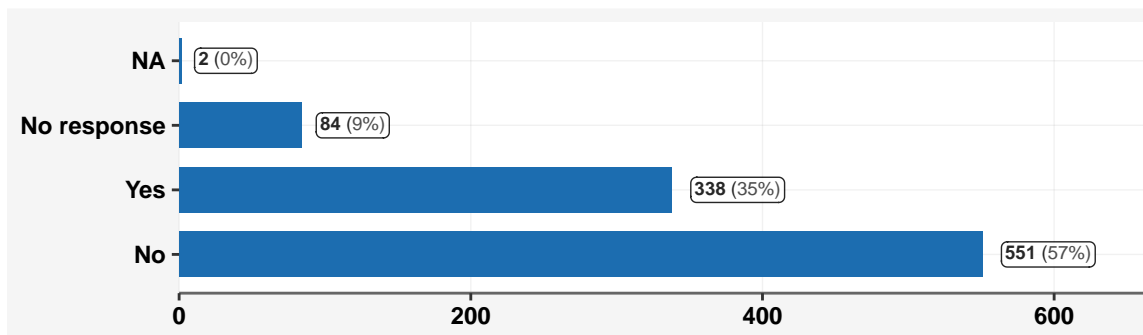

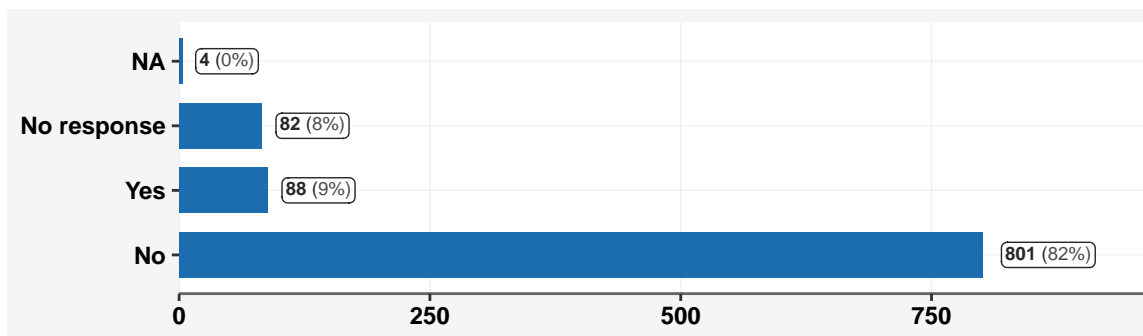

14.2 Since March 1st, have you stopped working or stopped one of your jobs due to the confinement?

14.3 Since March 1st, have you noticed an increase in stress for yourself or in your household, connected with the epidemic?

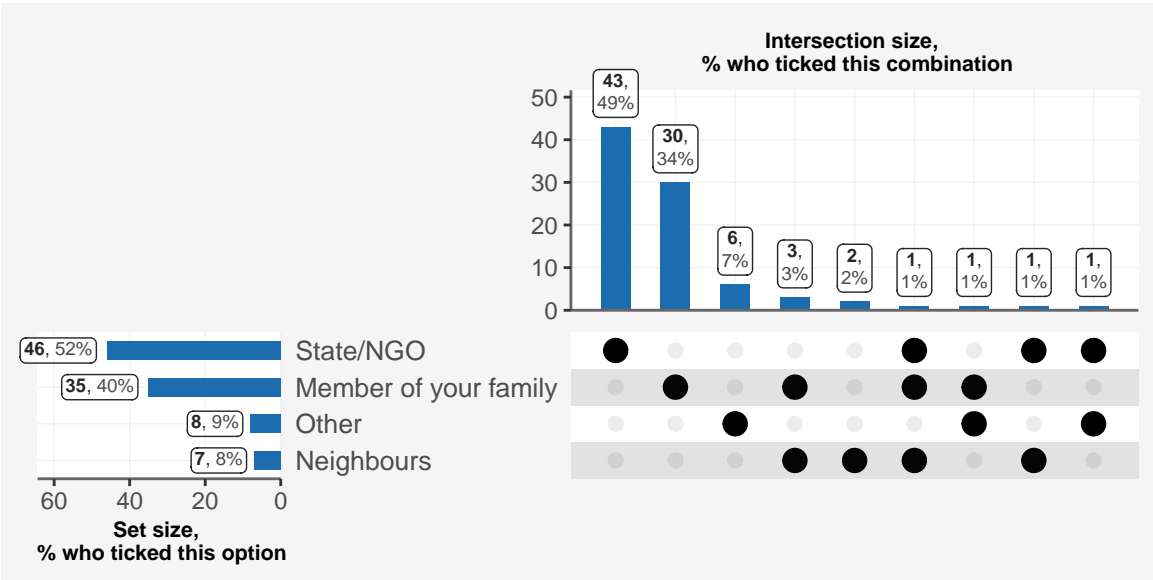

14.4 Within your household, have you faced since March 1st any physical or psychological violence?**14.5 Since March 1st, have you received any material aid (money, meals, ...) from external sources?**

14.5.1 Specify the received items
